

Repurchase and Distribution Calendar

Repurchase (Tender) Offer Schedule

According to the Bluerock High Income Institutional Credit Fund's (the Fund) repurchase policy, the Fund will offer to repurchase at least 5 percent of outstanding shares on a quarterly basis. Shareholders will be notified in writing of each quarterly repurchase offer and the date the repurchase offer ends. *Please note dates are subject to change. Shareholders should refer to the quarterly written notices for the actual repurchase dates.*

	Repurchase Offer Notice Date	Repurchase Offer Deadline*
First Quarter 2024	3/28/24	5/7/24

Risk Disclosures

Investing in the Fund involves risks, including the risk that you may receive little or no return on your investment, and that you may lose part or all of your investment. This is neither an offer to sell nor a solicitation to purchase any security.

Investors should carefully consider the investment objectives, risks, sales charges and expenses of the Bluerock High Income Institutional Credit Fund (the "Fund"). This and other important information about the Fund is contained in the prospectus, which can be obtained by visiting bluerock.com/hi-fund/documents. The prospectus should be read carefully before investing.

Past performance is not a guarantee of future results. The ability of the Fund to achieve its investment objective depends, in part, on the ability of the Advisor and Sub-Advisor to allocate effectively the assets of the Fund among the various available investment opportunities. There can be no assurance that the actual allocations will be effective in achieving the Fund's investment objective or delivering positive returns. There is no guarantee that the Fund's investment strategies will work under all market conditions. Statements relating to the performance of the Fund contained herein are historical and the Fund's performance subsequent to the date as of which such statements were made may differ materially. Updated performance data for the Fund is available at bluerockfunds.com/performance.

The Fund is a closed-end interval fund, the shares have no history of public trading, nor is it intended that the shares will be listed on a public exchange at this time. No secondary market is expected to develop for the Fund's shares. Limited liquidity is provided to shareholders only through the Fund's quarterly repurchase offers for no less than 5% of the Fund's shares outstanding at net asset value. There is no guarantee that shareholders will be able to sell all of the shares they desire in a quarterly repurchase offer. Quarterly repurchases by the Fund of its shares typically will be funded from available cash or sales of portfolio securities. The sale of securities to fund repurchases could reduce the market price of those securities, which in turn would reduce the Fund's net asset value. The Fund is suitable only for investors who can bear the risks associated with the limited liquidity of the Fund and should be viewed as a long-term investment.

Because the Fund invests primarily in debt-anchored instruments and securities, the value of your investment in the Fund may fluctuate with changes in interest rates. The Fund may invest in senior secured debt and CLOs. Substantial increases in interest rates may cause an increase in loan defaults and the value of the Fund's assets may also be affected by other uncertainties such as economic developments affecting the market for senior secured term loans or uncertainties affecting borrowers generally. There is a risk that the borrowers under the Senior Secured Loans may not make scheduled interest and/or principal payments on their loans and/or debt securities, which may result in losses or reduced cash flow to the Fund, either or both of which may cause the NAV of, or the distributions by, the Fund to decrease. CLOs carry additional risks, including but not limited to (i) the possibility that distributions from collateral will not be adequate to make interest or other payments; (ii) the quality of the collateral may decline in value or default; (iii) the possibility that the Fund's investments in CLOs are subordinate to other classes or tranches thereof; and (iv) the complex structure of the CLO investment may not be fully understood at the time of investment and may produce disputes with the issuer, holders of senior tranches or other unexpected investment results. In addition, the nature of the Fund's investment strategy also subjects it to various risks, including credit risk (the debtor may default), liquidity risk (the investment may not be able to be sold at an advantageous time or price) and prepayment risk (the debtor may pay its obligation early, reducing the amount of interest payments). All potential investors should read the Risk Factors section of the prospectus for additional information related to the risks associated with an investment in the Fund.
