This Statement of Additional Information (“SAI”) is not a prospectus. This SAI should be read in conjunction with the Class F shares prospectus of Bluerock High Income Institutional Credit Fund dated February 1, 2024 (“Prospectus”), which may be supplemented from time to time. The Prospectus is hereby incorporated by reference into this SAI (legally made a part of this SAI). Capitalized terms used but not defined in this SAI have the meanings given to them in the Prospectus. This SAI does not include all information that a prospective investor should consider before purchasing the Fund’s securities.

You should obtain and read the Class F shares Prospectus and any related Prospectus supplement prior to purchasing any of the Fund’s securities. A copy of the Prospectus may be obtained without charge by calling the Fund toll-free at 1-844-819-8287 or by visiting <http://www.bluerockfunds.com>. Information on the website is not incorporated herein by reference. The registration statement of which the Prospectus is a part can be reviewed and copied at the Public Reference Room of the U.S. Securities and Exchange Commission (“SEC”) at 100 F Street NE, Washington, D.C. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-202-551-8090. The Fund’s filings with the SEC also are available to the public on the SEC’s Internet web site at www.sec.gov. Copies of these filings may be obtained, after paying a duplicating fee, by electronic request at the following E-mail address: publicinfo@sec.gov, or by writing the SEC’s Public Reference Section, 100 F Street NE, Washington, D.C. 20549.

GENERAL INFORMATION AND HISTORY

Bluerock High Income Institutional Credit Fund is a continuously offered, non-diversified, closed-end management investment company that is operated as an interval fund (the “Fund”). The Fund is a Delaware statutory trust that was formed on August 19, 2021. The Fund’s principal office is located at 1345 Avenue of the Americas, 32nd Floor, New York, NY 10105, and its telephone number is 1-844-819-8287. The investment objective and principal investment strategies of the Fund, as well as the principal risks associated with the Fund’s investment strategies, are set forth in the Prospectus. Certain additional investment information is set forth below. The Fund may issue an unlimited number of shares of beneficial interest. All shares of the Fund have equal rights and privileges. Each share of the Fund is entitled to one vote on all matters as to which shares are entitled to vote. In addition, each share of the Fund is entitled to participate, on a class-specific basis, equally with other shares (i) in dividends and distributions declared by the Fund and (ii) on liquidation to its proportionate share of the assets remaining after satisfaction of outstanding liabilities. Shares of the Fund are fully paid, non-assessable when issued and have no pre-emptive, conversion or exchange rights. Fractional shares have proportionately the same rights, including voting rights, as are provided for a full share.

The Fund offers four classes of shares, including Class F shares. Class A, Class C, and Class I shares are each offered by a separate prospectus and a separate statement of additional information. Each class of shares represents an interest in the same assets of the Fund, has the same rights and is identical in all material respects except that (i) each class of shares may be subject to different (or no) sales loads, (ii) each class of shares may bear different (or no) distribution and shareholder servicing fees; (iii) each class of shares may have different shareholder features, such as minimum investment amounts; (iv) certain other class-specific expenses will be borne solely by the class to which such expenses are attributable, including transfer agent fees attributable to a specific class of shares, printing and postage expenses related to preparing and distributing materials to current shareholders of a specific class, registration fees paid by a specific class of shares, the expenses of administrative personnel and services required to support the shareholders of a specific class, litigation or other legal expenses relating to a class of shares, Trustees’ fees or expenses paid as a result of issues relating to a specific class of shares and accounting fees and expenses relating to a specific class of shares and (v) each class has exclusive voting rights with respect to matters relating to its own distribution arrangements. The Board of Trustees (the “Board” or “Trustees”) may classify and reclassify the shares of the Fund into additional classes of shares at a future date.

INVESTMENT OBJECTIVES AND POLICIES

Investment Objective

The Fund’s primary investment objective is to generate high current income, while secondarily seeking attractive, long-term risk-adjusted returns, with low correlation to the broader markets.

Fundamental Policies

The Fund’s stated fundamental policies, which may only be changed by the affirmative vote of a majority of the outstanding voting securities of the Fund (the shares), are listed below. For the purposes of this SAI, “majority of the outstanding voting securities of the Fund” means the vote, at an annual or special meeting of shareholders, duly called, (a) of 67% or more of the shares present at such meeting, if the holders of more than 50% of the outstanding shares are present or represented by proxy; or (b) of more than 50% of the outstanding shares, whichever is less. The Fund may not:

(1) Borrow money, except to the extent permitted by the Investment Company Act of 1940, as amended (the “1940 Act”) (which currently limits borrowing to no more than 33-1/3% of the value of the Fund’s total assets, including the value of the assets purchased with the proceeds of its indebtedness, if any). The Fund may borrow for investment purposes, for temporary liquidity, or to finance repurchases of its shares.

(2) Issue senior securities, except to the extent permitted by Section 18 of the 1940 Act (which currently limits the issuance of a class of senior securities that is indebtedness to no more than 33-1/3% of the value of the Fund’s total assets or, if the class of senior security is stock, to no more than 50% of the value of the Fund’s total assets).

(3) Purchase securities on margin, but may sell securities short and write put and call options.

(4) Underwrite securities of other issuers, except insofar as the Fund may be deemed an underwriter under the Securities Act of 1933, as amended (the “Securities Act”) in connection with the disposition of its portfolio securities. The Fund may invest in restricted securities (those that must be registered under the Securities Act before they may be offered or sold to the public) to the extent permitted by the 1940 Act.

(5) Invest more than 25% of the market value of its assets in the securities of companies or entities engaged in any one industry. This limitation does not apply to investment in the securities of the U.S. Government, its agencies or instrumentalities.

(6) Purchase or sell commodities, commodity contracts, including commodity futures contracts, unless acquired as a result of ownership of securities or other investments, except that the Fund may invest in securities or other instruments backed by or linked to commodities, and invest in companies that are engaged in a commodities business or have a significant portion of their assets in commodities, and may invest in commodity pools and other entities that purchase and sell commodities and commodity contracts.

(7) Make loans to others, except (a) where each loan is represented by a note executed by the borrower, (b) through the purchase of debt securities in accordance with its investment objectives and policies, (c) to the extent the entry into a repurchase agreement is deemed to be a loan, and (d) by loaning portfolio securities.

(8) Purchase or sell real estate or interests in real estate. This limitation is not applicable to investments in marketable securities that are secured by or represent interests in real estate. This limitation does not preclude the Fund from investing in securities that are secured by or represent interests in real estate (e.g., mortgage loans evidenced by notes or other writings defined to be a type of security), mortgage-related securities or investing in companies engaged in the real estate business or that have a significant portion of their assets in real estate (including real estate investment trusts).

Other Fundamental Policy

In addition, the Fund has adopted a fundamental policy that it will make quarterly repurchase offers for no less than for 5% of the Fund’s shares outstanding at net asset value (“NAV”) less any early withdrawal charge, unless suspended or postponed in accordance with regulatory requirements, and each repurchase pricing shall occur no later than the 14th day after the Repurchase Request Deadline, or the next business day if the 14th is not a business day.

Non-Fundamental Policy

The following additional investment limitation of the Fund and may be changed by the Board without shareholder approval:

(1) **80% Investment Policy.** The Fund has adopted a policy that under normal circumstances, the Fund invests at least 80% of its net assets (plus the amount of any borrowing for investment purposes) in Target Securities. The Fund may utilize leverage through borrowings for investment purposes or in order to satisfy repurchase requests, as defined in the Prospectus. Shareholders of the Fund will be provided with at least 60 days prior notice of any change in the Fund's 80% policy. The notice will be provided in a separate written document containing the following, or similar, statement, in boldface type: "Important Notice Regarding Change in Investment Policy." The statement will also appear on the envelope in which the notice is delivered, unless the notice is delivered separately from other communications to the shareholder.

If a restriction on the Fund's investments is adhered to at the time an investment is made, a subsequent change in the percentage of Fund assets invested in certain securities or other instruments, or change in average duration of the Fund's investment portfolio, resulting from changes in the value of the Fund's total assets, will not be considered a violation of any applicable restriction included in a fundamental or non-fundamental policy; provided, however, that the asset coverage requirement applicable to borrowings shall be maintained in the manner contemplated by applicable law.

Certain Portfolio Securities and Other Operating Policies

As discussed in the Prospectus, the Fund primarily invests in Target Securities, but may also, at times, invest a portion of its assets opportunistically in various structures and types of investments. No assurance can be given that any or all investment strategies, or the Fund's investment program, will be successful. The Fund's investment advisor is Bluerock Credit Fund Advisor, LLC (the "Advisor"). The "Sub-Advisor" to the Fund is WhiteStar Asset Management LLC. The Advisor is responsible for allocating the Fund's assets among various securities using its investment strategies, subject to policies adopted by the Board and has delegated investment management to the Sub-Advisor. Additional information regarding the types of securities and financial instruments is set forth below.

More Information About Collateralized Loan Obligations

The Fund's investment portfolio will have significant investments in the equity and junior debt tranches of CLOs. The CLOs that the Fund targets are securitization vehicles that pool portfolios of primarily below investment grade senior secured loans. Such pools of underlying assets are often referred to as a CLO's "collateral." While the vast majority of the portfolio of most CLOs consists of senior secured loans, many CLOs enable the CLO collateral manager to invest up to 10% of the portfolio in assets that are not first lien senior secured loans, including second lien loans, unsecured loans, senior secured bonds and senior unsecured bonds.

A CLO funds the purchase of a portfolio of primarily senior secured loans via the issuance of CLO equity and debt instruments in the form of multiple, primarily floating-rate debt, tranches. The CLO debt tranches typically are rated "AAA" (or its equivalent) at the most senior level down to "BB" or "B" (or its equivalent) by Moody's Investor Service, Inc., S&P and/or Fitch, Inc., which is below investment grade, at the most junior level. The CLO equity tranche is unrated and typically represents approximately 10% of a CLO's capital structure. A CLO's equity tranche represents the first loss position in the CLO. Below investment grade and unrated securities are sometimes referred to as "junk" securities.

CLOs have two priority-of-payment schedules (commonly called "waterfalls"), which are detailed in a CLO's indenture, that govern how cash generated from a CLO's underlying collateral is distributed to the CLO debt and equity investors. One waterfall (the interest waterfall) applies to interest payments received on a CLO's underlying collateral. The second waterfall (the principal waterfall) applies to cash generated from principal on the underlying collateral, primarily through loan repayments and the proceeds from loan sales. Through the interest waterfall, any excess interest-related cash flow available after the required quarterly interest payments to CLO debt investors are made and certain CLO expenses (such as administration and collateral management fees) are paid is then distributed to the CLO's equity investors each quarter, subject to compliance with certain tests.

A CLO's indenture typically requires that the maturity dates of a CLO's assets (typically five to eight years from the date of issuance of a senior secured loan) be shorter than the maturity date of the CLO's liabilities (typically 12 to 13 years from the date of issuance). However, CLO investors do face reinvestment risk with respect to a CLO's portfolio. In addition, in most CLO transactions, CLO debt investors are subject to prepayment risk in that the holders of a majority of the equity tranche can direct a call or refinancing of a CLO, which would cause the CLO's outstanding CLO debt securities to be repaid at par.

The Fund may invest in CLOs where Trinitas Capital Management, LLC ("Trinitas") serves as the sponsor or collateral manager. While Trinitas is not controlled by, under common control with, or controlling the Sub-Advisor, and such investments will not be principal transactions with an affiliate that would be prohibited by Section 17(a) of the Investment Company Act, Trinitas is a related adviser and has engaged the Sub-Advisor and certain of its personnel under a service agreement. In particular, Trinitas, as the management company to certain CLOs is structured and operated such that all of the collateral management activities of Trinitas are performed by a team of qualified credit and asset management professionals (which include both employees shared by Trinitas and the Sub-Advisor and at least one full-time employee of Trinitas (each, a "Non-Shared Employee")) selected by the Trinitas Board and under direct contractual employment arrangements with Trinitas. This group will include individuals who are employed by the Trinitas, and the affirmative approval of at least one such Non-Shared Employee will be required in connection with each decision by the Trinitas to buy or sell an asset. See "*Conflicts of Interest Regarding the Sub-Advisor*" below.

The Fund invests primarily in CLOs that are collateralized by U.S. dollar denominated senior secured loans, however the Fund may invest in CLOs that are collateralized by Euro-denominated loans. Investments in Euro-denominated loans will expose the Fund to currency risk. Currency risk is the risk that fluctuations in exchange rates will adversely affect the market value of the Fund's investments. Currency risk includes the risk that the currencies in which the Fund's investments are traded, in which the Fund receives income, or in which the Fund has taken a position will decline in value. Currency exchange rates can fluctuate significantly for many reasons.

Direct Lending

The Fund may participate in direct loan investments as a non-principal investment strategy. Direct loans typically consist of intermediate- to long-term borrowings by companies that are originated directly by lenders without the traditional intermediary role of a bank or broker. To the extent the Fund is the sole lender in privately offered debt, it may be solely responsible for the expense of servicing that debt, including, if necessary, taking legal actions to foreclose on any security instrument securing the debt. This may increase the risk and expense to the Fund compared to syndicated or publicly offered debt.

Fixed-Income Instruments

The Fund may invest in fixed-income instruments. Fixed-income instruments include high-yield corporate debt securities, or bonds, or U.S. government debt securities. The issuer of a fixed-income instrument pays the investor a fixed- or variable-rate of interest and normally must repay the amount borrowed on or before maturity. Certain bonds are "perpetual" in that they have no maturity date. Holders of fixed-income bonds, as creditors, have a prior legal claim over common and preferred stockholders as to both income and assets of the issuer for the principal and interest due them and may have a prior claim over other creditors but would be subordinate to any existing secured lenders with higher priority in the issuer's capital structure. Fixed-income instruments may be secured or unsecured. The investment return of corporate bonds reflects interest on the security and changes in the market value of the security. The market value of a corporate bond, especially a fixed-rate bond, will generally rise and fall inversely with interest rates. The value of intermediate- and longer-term corporate bonds normally fluctuates more in response to changes in interest rates than does the value of shorter-term corporate bonds. The market value of a corporate bond also may be affected by the credit rating of the corporation, the corporation's performance and perceptions of the corporation in the market place. There is a risk that the issuers of the securities may not be able to meet their obligations on interest or principal payments at the time called for by an instrument. Corporate fixed-income instruments usually yield more than government or agency bonds due to the presence of credit risk.

Subordinated Debt

The Fund may invest in subordinated debt. Subordinated debt will be structured as unsecured, subordinated debt that provides for relatively high, fixed interest rates that provides the Fund with significant current interest income. This debt typically will have interest-only payments (often representing a combination of cash pay and Payment In Kind (“PIK”) interest) in the early years, with amortization of principal deferred to maturity. Subordinated debt generally allows the borrower to make a large lump sum payment of principal at the end of the loan term, and there is a risk of loss if the borrower is unable to pay the lump sum or refinance the amount owed at maturity. Subordinated debt is generally more volatile than secured debt and may involve a greater risk of loss of principal. Subordinated debt often includes a PIK feature, which effectively operates as negative amortization of loan principal, thereby increasing credit risk exposure over the life of the debt.

Unsecured Debt

The Fund may invest in unsecured debt. Unsecured debt, including senior unsecured and subordinated debt, will not be secured by any collateral and will be effectively subordinated to the borrower’s secured indebtedness (to the extent of the collateral securing such indebtedness) and will typically have maturities of three to ten years.

Private Investment Funds

The Fund may invest to a limited extent in Private Investment Funds, which are pooled investment vehicles that are exempt from registration under the 1940 Act, and therefore are subject to fewer rules and limitations on investing. The Private Investment Funds in which the Fund may invest will hold portfolio securities that are consistent with the Fund’s investment objective and strategy. The Private Investment Funds may utilize leverage, pursuant to their operative documents, as a way to seek or enhance returns. Dependent upon the investment strategy and/or other factors, each Private Investment Fund will have differing limitations on the utilization of leverage. Such limitations are Private Investment Fund specific and may apply to an overall portfolio limitation.

Money Market Instruments

The Fund may invest, for defensive purposes or otherwise, some or all of its assets in high quality fixed-income securities, money market instruments, and money market mutual funds, or hold cash or cash equivalents in such amounts as the Fund or Sub-Advisor deems appropriate under the circumstances. Pending allocation of this offering proceeds and thereafter, from time to time, the Fund also may invest in these instruments and Other Public Investment Vehicles. Money market instruments are high quality, short-term fixed-income obligations, which generally have remaining maturities of one year or less, and may include U.S. Government securities, commercial paper, certificates of deposit and bankers’ acceptances issued by domestic branches of U.S. banks that are members of the Federal Deposit Insurance Corporation (the “FDIC”) and repurchase agreements.

United States Government Obligations

These consist of various types of marketable securities issued by the United States Treasury, i.e., bills, notes and bonds. Such securities are direct obligations of the United States government and differ mainly in the length of their maturity. Treasury bills, the most frequently issued marketable government security, have a maturity of up to one year and are issued on a discount basis. The Fund may also invest in Treasury Inflation-Protected Securities (“TIPS”). TIPS are special types of treasury bonds that were created in order to offer bond investors protection from inflation. The values of the TIPS are automatically adjusted to the inflation rate as measured by the Consumer Price Index (“CPI”). If the CPI goes up by half a percent, the value of the bond (the TIPS) would also go up by half a percent. If the CPI falls, the value of the bond does not fall because the government guarantees that the original investment will stay the same. TIPS decline in value when real interest rates rise. However, in certain interest rate environments, such as when real interest rates are rising faster than nominal interest rates, TIPS may experience greater losses than other fixed income securities with similar duration.

Repurchase Agreements

The Fund may enter into repurchase agreements. In a repurchase agreement, an investor (such as the Fund) purchases a security (known as the “underlying security”) from a securities dealer or bank. Any such dealer or bank must be deemed creditworthy by the Advisor. At that time, the bank or securities dealer agrees to repurchase the underlying security at a mutually agreed upon price on a designated future date. The repurchase price may be higher than the purchase price, the difference being income to the Fund, or the purchase and repurchase prices may be the same, with interest at an agreed upon rate due to the Fund on repurchase. In either case, the income to the Fund generally will be unrelated to the interest rate on the underlying securities. Repurchase agreements must be “fully collateralized,” in that the market value of the underlying securities (including accrued interest) must at all times be equal to or greater than the repurchase price. Therefore, a repurchase agreement can be considered a loan collateralized by the underlying securities.

Repurchase agreements are generally for a short period of time, often less than a year, and will generally be used by the Fund to invest excess cash or as part of a temporary defensive strategy. Repurchase agreements that do not provide for payment within seven days will be treated as illiquid securities. In the event of a bankruptcy or other default by the seller of a repurchase agreement, the Fund could experience both delays in liquidating the underlying security and losses. These losses could result from: (a) possible decline in the value of the underlying security while the Fund is seeking to enforce its rights under the repurchase agreement; (b) possible reduced levels of income or lack of access to income during this period; and (c) expenses of enforcing its rights.

Fixed Income/ Debt/ Bond Securities

Yields on fixed income securities, are dependent on a variety of factors, including the general conditions of the money market and other fixed income securities markets, the size of a particular offering, the maturity of the obligation and the rating of the issue. An investment in the Fund will be subjected to risk even if all fixed income securities in the Fund’ portfolio are paid in full at maturity. All fixed income securities, including U.S. Government securities, can change in value when there is a change in interest rates or the issuer’s actual or perceived creditworthiness or ability to meet its obligations.

There is normally an inverse relationship between the market value of securities sensitive to prevailing interest rates and actual changes in interest rates. In other words, an increase in interest rates produces a decrease in market value. The longer the remaining maturity (and duration) of a security, the greater will be the effect of interest rate changes on the market value of that security. Changes in the ability of an issuer to make payments of interest and principal and in the markets' perception of an issuer's creditworthiness will also affect the market value of the debt securities of that issuer. Obligations of issuers of fixed income securities (including municipal securities) are subject to the provisions of bankruptcy, insolvency, and other laws affecting the rights and remedies of creditors, such as the Federal Bankruptcy Reform Act of 1978. In addition, the obligations of municipal issuers may become subject to laws enacted in the future by Congress, state legislatures, or referenda extending the time for payment of principal and/or interest or imposing other constraints upon enforcement of such obligations or upon the ability of municipalities to levy taxes. Changes in the ability of an issuer to make payments of interest and principal and in the market's perception of an issuer's creditworthiness will also affect the market value of the debt securities of that issuer. The possibility exists, therefore, that, the ability of any issuer to pay, when due, the principal of and interest on its debt securities may become impaired.

The corporate debt securities in which the Fund may invest include corporate bonds and notes and short-term investments such as commercial paper and variable rate demand notes. Commercial paper (short-term promissory notes) is issued by companies to finance their or their affiliate's current obligations and is frequently unsecured. Variable and floating rate demand notes are unsecured obligations redeemable upon not more than 30 days' notice. These obligations include master demand notes that permit investment of fluctuating amounts at varying rates of interest pursuant to a direct arrangement with the issuer of the instrument. The issuer of these obligations often has the right, after a given period, to prepay the outstanding principal amount of the obligations upon a specified number of days' notice. These obligations generally are not traded, nor generally is there an established secondary market for these obligations. To the extent a demand note does not have a 7-day or shorter demand feature and there is no readily available market for the obligation, it is treated as an illiquid security.

The Fund may also invest in municipal or other equipment finance bonds or lease obligations. Such bonds or lease obligations may be issued by state and local governments and authorities to acquire equipment and facilities, such as vehicles, telecommunications and computer equipment and other capital assets. States have different requirements for issuing municipal debt and issuing municipal leases. Municipal leases are generally subject to greater risks than general obligation or revenue bonds because they usually contain a "non-appropriation" clause, which provides that the issuer is not obligated to make payments on the obligation in future years unless funds have been appropriated for this purpose each year. Such non-appropriation clauses are required to avoid the municipal lease obligations from being treated as debt for state debt restriction purposes. Accordingly, such obligations are subject to "non-appropriation" risk. Municipal leases may be secured by the underlying capital asset and it may be difficult to dispose of any such asset in the event of non-appropriation or other default.

The following describes some of the risks associated with fixed income debt securities:

Interest Rate Risk. Debt securities have varying levels of sensitivity to changes in interest rates. In general, the price of a debt security can fall when interest rates rise and can rise when interest rates fall. Securities with longer maturities and mortgage securities can be more sensitive to interest rate changes although they usually offer higher yields to compensate investors for the greater risks. The longer the maturity of the security, the greater the impact a change in interest rates could have on the security's price. In addition, short-term and long-term interest rates do not necessarily move in the same amount or the same direction. Short-term securities tend to react to changes in short-term interest rates and long-term securities tend to react to changes in long-term interest rates.

Credit Risk. Fixed income securities have speculative characteristics and changes in economic conditions or other circumstances are more likely to lead to a weakened capacity of those issuers to make principal or interest payments, as compared to issuers of more highly rated securities.

Extension Risk. The Fund is subject to the risk that an issuer will exercise its right to pay principal on an obligation held by the Fund (such as mortgage-backed securities) later than expected. This may happen when there is a rise in interest rates. These events may lengthen the duration (i.e. interest rate sensitivity) and potentially reduce the value of these securities.

Prepayment Risk. Certain types of debt securities, such as mortgage-backed securities, have yield and maturity characteristics corresponding to underlying assets. Unlike traditional debt securities, which may pay a fixed rate of interest until maturity when the entire principal amount comes due, payments on certain mortgage-backed securities may include both interest and a partial payment of principal. Besides the scheduled repayment of principal, payments of principal may result from the voluntary prepayment, refinancing, or foreclosure of the underlying mortgage loans.

Securities subject to prepayment are less effective than other types of securities as a means of “locking in” attractive long-term interest rates. One reason is the need to reinvest prepayments of principal; another is the possibility of significant unscheduled prepayments resulting from declines in interest rates. These prepayments would have to be reinvested at lower rates. As a result, these securities may have less potential for capital appreciation during periods of declining interest rates than other securities of comparable maturities, although they may have a similar risk of decline in market value during periods of rising interest rates. Prepayments may also significantly shorten the effective maturities of these securities, especially during periods of declining interest rates. Conversely, during periods of rising interest rates, a reduction in prepayments may increase the effective maturities of these securities, subjecting them to a greater risk of decline in market value in response to rising interest rates than traditional debt securities, and, therefore, potentially increasing the volatility of the Fund.

Preferred Securities

The Fund may invest in preferred securities. There are various risks associated with investing in preferred securities, including credit risk, interest rate risk, deferral and omission of distributions, subordination to Senior Secured Loans, bonds and other debt securities in an issuer’s capital structure, limited liquidity, limited voting rights and special redemption rights. Preferred securities with longer maturities tend to be more sensitive to interest rate changes. Holders of preferred securities may not receive dividends, or the payment can be deferred for some period of time. In bankruptcy, holders of debt are generally paid before the holders of preferred securities.

Other Investment Companies

The Fund may invest in securities of other investment companies, including exchange-traded funds (“ETFs”). The Fund will indirectly bear its proportionate share of any management fees and other expenses paid by investment companies in which it invests, in addition to the management fees (and other expenses) paid by the Fund. The Fund’s investments in other investment companies are subject to statutory limitations prescribed by the 1940 Act, including in certain circumstances a prohibition on the Fund acquiring more than 3% of the voting shares of any other investment company, and a prohibition on investing more than 5% of the Fund’s total assets in securities of any one investment company or more than 10% of its total assets in the securities of all investment companies. In addition, Section 12(d)(1)(F) of the 1940 Act provides that the provisions of paragraph 12(d)(1) shall not apply to securities purchased or otherwise acquired by the Fund if (i) immediately after such purchase or acquisition not more than 3% of the total outstanding stock of such registered investment company is owned by the Fund and all affiliated persons of the Fund; and (ii) the Fund has not, and is not proposing to offer or sell any security issued by it through a principal underwriter or otherwise at a public or offering price which includes a sales load of more than 1 ½%. An investment company that issues shares to the Fund pursuant to paragraph 12(d)(1)(F) shall not be required to redeem its shares in an amount exceeding 1% of such investment company’s total outstanding shares in any period of less than thirty days. The Fund (or the Advisor acting on behalf of the Fund) must comply with the following voting restrictions: when the Fund exercises voting rights, by proxy or otherwise, with respect to investment companies owned by the Fund, the Fund will either seek instruction from the Fund’s shareholders with regard to the voting of all proxies and vote in accordance with such instructions, or vote the shares held by the Fund in the same proportion as the vote of all other holders of such security. Further, the Fund may rely on Rule 12d1-3, which allows unaffiliated investment companies to exceed the 5% Limitation and the 10% Limitation, provided the aggregate sales loads any investor pays does not exceed the limits on sales loads established by the Financial Industry Regulatory Authority (“FINRA”) for funds of funds. Many ETFs, however, have obtained exemptive relief from the SEC to permit unaffiliated funds (such as the Fund) to invest in their shares beyond these statutory limits, subject to certain conditions and pursuant to contractual arrangements between the ETFs and the investing funds. The Fund may rely on these exemptive orders in investing in ETFs.

ETFs are shares of unaffiliated investment companies issuing shares which are traded like traditional equity securities on a national stock exchange. Much like an index mutual fund, an ETF represents a portfolio of securities, which is often designed to track a particular market segment or index. An investment in an ETF, like one in any investment company, carries the same risks as those of its underlying securities. An ETF may fail to accurately track the returns of the market segment or index that it is designed to track, and the price of an ETF's shares may fluctuate or lose money. In addition, because they, unlike other investment companies, are traded on an exchange, ETFs are subject to the following risks: (i) the market price of the ETF's shares may trade at a premium or discount to the ETF's net asset value; (ii) an active trading market for an ETF may not develop or be maintained; and (iii) there is no assurance that the requirements of the exchange necessary to maintain the listing of the ETF will continue to be met or remain unchanged. In the event substantial market or other disruptions affecting ETFs should occur in the future, the liquidity and value of the Fund's shares could also be substantially and adversely affected.

Although not a principal investment strategy, the Fund may not invest more than 10% of its assets in private funds employing hedging strategies (commonly known as "hedge funds", i.e., investment funds that would be investment companies but for the exemptions under Rule 3(c)(1) or 3(c)(7) under the 1940 Act). Among other things, the hedge funds may invest in U.S. and non-U.S. equity and debt securities and may engage in leverage, short selling and derivative transactions. Hedge funds typically offer their securities privately without registration under the Securities Act, in large minimum denominations (often at least \$1 million) to a limited number of high net worth individual and institutional investors hedge funds are not registered as investment companies under the 1940 Act pursuant to an exemption from registration under the 1940 Act.

Typically, investment managers of hedge funds are compensated through asset-based fees and incentive-based allocations. The hedge funds employ a variety of "alternative" investment strategies to achieve attractive risk-adjusted returns (i.e., returns adjusted to take into account the volatility of those returns) with low correlation to the broad equity and fixed-income markets. "Alternative" investment strategies, unlike "relative return strategies," are generally managed without reference to the performance of equity, debt and other markets. Alternative investment strategies permit the managers of hedge funds to use leveraged or short sale positions to take advantage of perceived inefficiencies in the global capital markets. Alternative investment strategies differ from the investment programs of traditional registered investment companies, such as mutual funds. "Traditional" investment companies are generally characterized by long-only investments and restricted use of leverage.

Special Investment Techniques

The Fund may use a variety of special investment instruments and techniques to hedge against various risks or other factors and variables that may affect the values of the Fund's portfolio securities. The Fund may employ different techniques over time, as new instruments and techniques are introduced or as a result of regulatory developments. Some special investment techniques that Fund may use may be considered speculative and involve a high degree of risk, even when used for hedging purposes. A hedging transaction may not perform as anticipated, and the Fund may suffer losses as a result of its hedging activities.

Derivatives

Generally. The Fund may engage in transactions involving options and futures and other derivative financial instruments. Derivatives can be volatile and involve various types and degrees of risk. By using derivatives, the Fund may be permitted to increase or decrease the level of risk, or change the character of the risk, to which the portfolio is exposed.

A small investment in derivatives could have a substantial impact on the Fund's performance. The market for many derivatives is, or suddenly can become, illiquid. Changes in liquidity may result in significant and rapid changes in the prices for derivatives. If the Fund were to invest in derivatives at an inopportune time, or the Advisor evaluates market conditions incorrectly, the Fund's derivative investment could negatively impact the Fund's return, or result in a loss. In addition, the Fund could experience a loss if its derivatives were poorly correlated with its other investments, or if the Fund were unable to liquidate its position because of an illiquid secondary market.

Options and Futures. The Fund may engage in the use of options and futures contracts, including options on baskets of specific securities, or other derivative instruments written by broker-dealers or other financial intermediaries. These transactions may be effected on securities exchanges or in the over-the-counter market, or they may be negotiated directly with counterparties. In cases where instruments are purchased over-the-counter or negotiated directly with counterparties, the Fund is subject to the risk that the counterparty will be unable or unwilling to perform its obligations under the contract. These transactions may also be illiquid and, if so, it might be difficult to close out a position.

The Fund may purchase call and put options on specific securities. The Fund may also write and sell covered or uncovered call options for both hedging purposes and to pursue the Fund's investment objectives. A put option gives the purchaser of the option the right to sell, and obligates the writer to buy, the underlying security at a stated price at any time before the option expires. Similarly, a call option gives the purchaser of the option the right to buy, and obligates the writer to sell, the underlying security at a stated price at any time before the option expires.

In a covered call option, the Fund owns the underlying security. The sale of such an option exposes the Fund to a potential loss of opportunity to realize appreciation in the market price of the underlying security during the term of the option. Using covered call options might expose the Fund to other risks, as well. For example, the Fund might be required to continue holding a security that the Fund might otherwise have sold to protect against depreciation in the market price of the security. The Fund is also exposed to price declines in the underlying security.

In an uncovered call option, the Fund does not own the underlying security. The sale of such an option exposes the Fund to potentially unlimited loss if the market for the instrument for which the call is written appreciates instead of depreciating. The Fund does not anticipate writing uncovered call options frequently.

Transactions using options, either covered or uncovered (other than options that the Fund has purchased), expose the Fund to an obligation to another party. The Fund will not enter into any such transactions unless it owns either (i) an offsetting (“covered”) position in securities or other options or (ii) cash or liquid securities with a value sufficient at all times to cover its potential obligations not covered as provided in (i) above (“uncovered”). The Fund will comply with SEC guidelines regarding cover for these instruments and, if the guidelines so require, set aside cash or liquid securities in a segregated account with the custodian in the prescribed amount. Under current SEC guidelines, the Fund will segregate assets to cover transactions in which the Fund writes or sells options.

Assets used as cover or held in a segregated account cannot be sold while the position in the corresponding option is open, unless they are replaced with similar assets. As a result, the commitment of a large portion of the Fund’s assets to cover or segregated accounts could impede portfolio management or the Fund’s ability to meet redemption requests or other current obligations.

When writing options, the Fund may close its position by purchasing an option on the same security with the same exercise price and expiration date as the option that it has previously written on the security. If the amount paid to purchase an option is less or more than the amount received from the sale, the Fund will, accordingly, realize a profit or loss. To close out a position as a purchaser of an option, the Fund would liquidate the position by selling the option previously purchased.

The use of derivatives that are subject to regulation by the Commodity Futures Trading Commission (the “CFTC”) by the Fund could cause the Fund to be a commodity pool, which would require the Fund to comply with certain rules of the CFTC. However, the Fund intends to conduct its operations to avoid regulation as a commodity pool. In connection with its management of the Fund, the Advisor has claimed such an exclusion from the definition of a commodity pool operator under the Commodity Exchange Act (“CEA”). Therefore, it is not subject to the registration and regulatory requirements of the CEA.

Successful use of futures also is subject to the Advisor’s ability to correctly predict movements in the relevant market. To the extent that a transaction is entered into for hedging purposes, successful use is also subject to the Advisor’s ability to evaluate the appropriate correlation between the transaction being hedged and the price movements of the futures contract.

The Fund may also purchase and sell stock index futures contracts. A stock index futures contract obligates the Fund to pay or receive an amount of cash equal to a fixed dollar amount specified in the futures contract, multiplied by the difference between the settlement price of the contract on the contract’s last trading day, and the value of the index based on the stock prices of the securities that comprise it at the opening of trading in those securities on the next business day. The Fund may purchase and sell interest rate futures contracts, which represent obligations to purchase or sell an amount of a specific debt security at a future date at a specific price.

Options on Securities Indexes. The Fund may purchase and sell call and put options on stock indexes listed on national securities exchanges or traded in the over-the-counter market for hedging or speculative purposes. A stock index fluctuates with changes in the market values of the stocks included in the index. Accordingly, successful use of options on stock indexes will be subject to the Advisor’s ability to correctly evaluate movements in the stock market generally, or of a particular industry or market segment. Uncovered call options expose the Fund to potentially unlimited liability. Uncovered put options expose the Fund to potential losses equal to the strike price of the put option less the premium received.

Swap Agreements. The Fund may enter into a variety of swap agreements, including equity, interest rate, and index swap agreements. The Fund is not limited to any particular form of swap agreement if the Advisor determines that other forms are consistent with the Fund's investment objectives and policies. Swap agreements are contracts entered into by two parties (primarily institutional investors) for periods ranging from a few weeks to more than a year. In a standard swap transaction, the parties agree to exchange the returns (or differentials in rates of return) earned or realized on particular predetermined investments or instruments, which may be adjusted for an interest factor. The gross returns to be exchanged or "swapped" between the parties are generally calculated with respect to a "notional amount," i.e., the return on or increase in value of a particular dollar amount invested at a particular interest rate, in a particular foreign currency, or in a "basket" of securities representing a particular index. Additional forms of swap agreements include (i) interest rate caps, under which, in return for a premium, one party agrees to make payments to the other to the extent interest rates exceed a specified rate or "cap;" (ii) interest rate floors, under which, in return for a premium, one party agrees to make payments to the other to the extent interest rates fall below a specified level or "floor;" and (iii) interest rate collars, under which a party sells a cap and purchases a floor (or vice versa) in an attempt to protect itself against interest rate movements exceeding certain minimum or maximum levels.

Generally, the Fund's obligations (or rights) under a swap agreement will be equal only to the net amount to be paid or received under the agreement, based on the relative values of the positions held by the parties. The risk of loss is limited to the net amount of interest payments that a party is contractually required to make. As such, if the counterparty to a swap defaults, the Fund's risk of loss consists of the net amount of payments that it is entitled to receive.

Asset-Backed Securities

The Fund may invest in asset-backed securities. In doing so, the Fund is subject to the risk that, if the underlying borrowers fail to pay interest or repay principal, the assets backing these securities may not be sufficient to support payments on the securities. Prepayment risk is also associated with asset-backed securities. If interest rates fall, the underlying debt may be repaid ahead of schedule, reducing the value of the Fund's investments. If interest rates rise, there may be fewer prepayments, which would cause the average bond maturity to rise, increasing the potential for the Fund to lose money. The value of these securities may be significantly affected by changes in interest rates, the market's perception of issuers, and the creditworthiness of the parties involved. The ability of the Fund to successfully utilize these instruments may depend on the ability of the Fund's Advisor to forecast interest rates and other economic factors correctly. These securities may have a structure that makes their reaction to interest rate changes and other factors difficult to predict, making their value highly volatile. Certain asset backed securities may be secured by pools of loans, such as student loans, automobile loans and credit card receivables. The credit risk on such securities is affected by homeowners or borrowers defaulting on their loans. The values of assets underlying asset-backed securities may decline and, therefore, may not be adequate to cover underlying investors. Possible legislation in the area of credit cards and other loans that may collateralize the securities in which the Fund may invest could negatively impact the value of the Fund's investments. To the extent the Fund focuses its investments in particular types of asset-backed securities, the Fund may be more susceptible to risk factors affecting such types of securities.

Non-Diversified Status

Because the Fund is "non-diversified" under the 1940 Act, it is subject only to certain federal tax diversification requirements. Under federal tax laws, the Fund may, with respect to 50% of its total assets, invest up to 25% of its total assets in the securities of any issuer. With respect to the remaining 50% of the Fund's total assets, (i) the Fund may not invest more than 5% of its total assets in the securities of any one issuer, and (ii) the Fund may not acquire more than 10% of the outstanding voting securities of any one issuer. These tests apply at the end of each quarter of the taxable year and are subject to certain conditions and limitations under the Code. These tests do not apply to investments in United States Government Securities and regulated investment companies.

Leverage

The Fund may utilize leverage through borrowing for investment purposes or to satisfy repurchase requests or other liquidity needs. In addition, the Fund may utilize reverse repurchase agreements. In a reverse repurchase agreement, the Fund sells one of its investments to a counter party and agrees to repurchase such investment at a mutually agreed upon price on a designated future date. The repurchase price may be higher than the purchase price, the difference being income to the counter party, or the purchase and repurchase prices may be the same, with interest at an agreed upon rate due to the counter party on repurchase. In either case, the income to the counter party generally will be unrelated to the interest rate on the underlying investment. Repurchase agreements must be "fully collateralized," in that the market value of the underlying securities (including accrued interest) must at all times be equal to or greater than the repurchase price.

When-Issued, Delayed Delivery and Forward Commitment Securities

To reduce the risk of changes in securities prices and interest rates, the Fund may purchase securities on a forward commitment, when-issued or delayed delivery basis. This means that delivery and payment occur a number of days after the date of the commitment to purchase. The payment obligation and the interest rate receivable with respect to such purchases are determined when the Fund enters into the commitment, but the Fund does not make payment until it receives delivery from the counterparty. The Fund may, if it is deemed advisable, sell the securities after it commits to a purchase but before delivery and settlement takes place.

Securities purchased on a forward commitment, when-issued or delayed delivery basis are subject to changes in value based upon the public's perception of the creditworthiness of the issuer and changes (either real or anticipated) in the level of interest rates. Purchasing securities on a when-issued or delayed delivery basis can present the risk that the yield available in the market when the delivery takes place may be higher than that obtained in the transaction itself. Purchasing securities on a forward commitment, when-issued or delayed delivery basis when the Fund is fully, or almost fully invested, results in a form of leverage and may cause greater fluctuation in the value of the net assets of the Fund. In addition, there is a risk that securities purchased on a when-issued or delayed delivery basis may not be delivered, and that the purchaser of securities sold by the Fund on a forward basis will not honor its purchase obligation. In such cases, the Fund may incur a loss.

REPURCHASES AND TRANSFERS OF SHARES

Repurchase Offers

The Board has adopted a resolution setting forth the Fund's fundamental policy that it will conduct quarterly repurchase offers (the "Repurchase Offer Policy"). The Repurchase Offer Policy sets the interval between each repurchase offer at one quarter and provides that the Fund shall conduct a repurchase offer each quarter (unless suspended or postponed in accordance with regulatory requirements). The Repurchase Offer Policy also provides that the repurchase pricing shall occur not later than the 14th day after the Repurchase Request Deadline or the next business day if the 14th day is not a business day. The Fund's Repurchase Offer Policy is fundamental and cannot be changed without shareholder approval. The Fund may, for the purpose of paying for repurchased shares, be required to liquidate portfolio holdings earlier than the Advisor would otherwise have liquidated these holdings. Such liquidations may result in losses, and may increase the Fund's portfolio turnover.

Repurchase Offer Policy Summary of Terms

1. The Fund will make repurchase offers at periodic intervals pursuant to Rule 23c-3 under the 1940 Act, as that rule may be amended from time to time.
2. The repurchase offers will generally be made quarterly.

3. The Fund must receive repurchase requests submitted by shareholders in response to the Fund's repurchase offer on or before the date specified in the repurchase offer, which will be within 21 to 42 days of the date the repurchase offer is made (or the preceding business day if the New York Stock Exchange is closed on that day) (the "Repurchase Request Deadline").
4. The maximum time between the Repurchase Request Deadline and the next date on which the Fund determines the net asset value applicable to the purchase of shares (the "Repurchase Pricing Date") is 14 calendar days (or the next business day if the fourteenth day is not a business day).

The Fund may not condition a repurchase offer upon the tender of any minimum amount of shares. The Fund may deduct from the repurchase proceeds an early withdrawal charge, that is paid to the Fund and that is reasonably intended to compensate the Fund for expenses directly related to the repurchase. The early withdrawal charge may not exceed 2% of the proceeds. Generally, the Fund does not charge an early withdrawal charge. Class F shares are not subject to an early withdrawal charge.

Procedures:

All periodic repurchase offers must comply with the following procedures:

Repurchase Offer Amount: Each quarter, the Fund may offer to repurchase at least 5% and no more than 25% of the Fund's outstanding shares on the Repurchase Request Deadline (the "Repurchase Offer Amount"). The Board shall determine the quarterly Repurchase Offer Amount.

Shareholder Notification: At least 21 days before each Repurchase Request Deadline, the Fund shall send to each shareholder of record and to each beneficial owner of the shares that are the subject of the repurchase offer a notification ("Shareholder Notification") providing the following information:

1. A statement that the Fund is offering to repurchase its shares from shareholders at net asset value;
2. Any fees applicable to such repurchase, if any;
3. The Repurchase Offer Amount;
4. The dates of the Repurchase Request Deadline, Repurchase Pricing Date, and the date by which the Fund must pay shareholders for any shares repurchased (which shall not be more than seven days after the Repurchase Pricing Date) (the "Repurchase Payment Deadline");
5. The risk of fluctuation in net asset value between the Repurchase Request Deadline and the Repurchase Pricing Date, and the possibility that the Fund may use an earlier Repurchase Pricing Date;
6. The procedures for shareholders to request repurchase of their shares and the right of shareholders to withdraw or modify their repurchase requests until the Repurchase Request Deadline;
7. The procedures under which the Fund may repurchase such shares on a pro rata basis if shareholders tender more than the Repurchase Offer Amount;
8. The circumstances in which the Fund may suspend or postpone a repurchase offer;

9. The net asset value of the shares computed no more than seven days before the date of the notification and the means by which shareholders may ascertain the net asset value thereafter; and
10. The market price, if any, of the shares on the date on which such net asset value was computed, and the means by which shareholders may ascertain the market price thereafter.

The Fund must file Form N-23c-3 (“Notification of Repurchase Offer”) and three copies of the Shareholder Notification with the SEC within three business days after sending the notification to shareholders.

Notification of Beneficial Owners: Where the Fund knows that shares subject of a repurchase offer are held of record by a broker, dealer, voting trustee, bank, association or other entity that exercises fiduciary powers in nominee name or otherwise, the Fund must follow the procedures for transmitting materials to beneficial owners of securities that are set forth in Rule 14a-13 under the Securities Exchange Act of 1934.

Repurchase Requests: Repurchase requests must be submitted by shareholders by the Repurchase Request Deadline. The Fund shall permit repurchase requests to be withdrawn or modified at any time until the Repurchase Request Deadline, but shall not permit repurchase requests to be withdrawn or modified after the Repurchase Request Deadline.

Repurchase Requests in Excess of the Repurchase Offer Amount: If shareholders tender more than the Repurchase Offer Amount, the Fund may, but is not required to, repurchase an additional amount of shares not to exceed 2% of the outstanding shares of the Fund on the Repurchase Request Deadline. If the Fund determines not to repurchase more than the Repurchase Offer Amount, or if shareholders tender shares in an amount exceeding the Repurchase Offer Amount plus 2% of the outstanding shares on the Repurchase Request Deadline, the Fund shall repurchase the shares tendered on a pro rata basis. This policy, however, does not prohibit the Fund from:

1. Accepting all repurchase requests by persons who own, beneficially or of record, an aggregate of not more than 100 shares and who tender all of their stock for repurchase, before prorating shares tendered by others, or
2. Accepting by lot shares tendered by shareholders who request repurchase of all shares held by them and who, when tendering their shares, elect to have either (i) all or none or (ii) at least a minimum amount or none accepted, if the Fund first accepts all shares tendered by shareholders who do not make this election.

Suspension or Postponement of Repurchase Offers: The Fund shall not suspend or postpone a repurchase offer except pursuant to a vote of a majority of the Board, including a majority of the Trustees who are not interested persons of the Fund, and only:

1. If the repurchase would cause the Fund to lose its status as a regulated investment company under Subchapter M of the Internal Revenue Code;
2. If the repurchase would cause the shares that are the subject of the offer that are either listed on a national securities exchange or quoted in an inter-dealer quotation system of a national securities association to be neither listed on any national securities exchange nor quoted on any inter-dealer quotation system of a national securities association;

3. For any period during which the New York Stock Exchange or any other market in which the securities owned by the Fund are principally traded is closed, other than customary week-end and holiday closings, or during which trading in such market is restricted;
4. For any period during which an emergency exists as a result of which disposal by the Fund of securities owned by it is not reasonably practicable, or during which it is not reasonably practicable for the Fund fairly to determine the value of its net assets; or
5. For such other periods as the SEC may by order permit for the protection of shareholders of the Fund.

If a repurchase offer is suspended or postponed, the Fund shall provide notice to shareholders of such suspension or postponement. If the Fund renews the repurchase offer, the Fund shall send a new Shareholder Notification to shareholders.

Computing Net Asset Value: The Fund's current net asset value per share ("NAV") shall be computed no less frequently than weekly, and daily on the five business days preceding a Repurchase Request Deadline, on such days and at such specific time or times during the day as set by the Board. Currently, the Board has determined that the Fund's NAV shall be determined daily following the close of the New York Stock Exchange. The Fund's NAV need not be calculated on:

1. Days on which changes in the value of the Fund's portfolio securities will not materially affect the current NAV of the shares;
2. Days during which no order to purchase shares is received, other than days when the NAV would otherwise be computed; or
3. Customary national, local, and regional business holidays described or listed in the Prospectus.

Liquidity Requirements: From the time the Fund sends a Shareholder Notification to shareholders until the Repurchase Pricing Date, a percentage of the Fund's assets equal to at least 100% of the Repurchase Offer Amount (the "Liquidity Amount") shall consist of assets that individually can be sold or disposed of in the ordinary course of business, at approximately the price at which the Fund has valued the investment, within a period equal to the period between a Repurchase Request Deadline and the Repurchase Payment Deadline, or of assets that mature by the next Repurchase Payment Deadline, and/or through access to a line of credit. This requirement means that individual assets must be salable under these circumstances. It does not require that the entire Liquidity Amount must be salable. In the event that the Fund's assets fail to comply with this requirement, the Board shall cause the Fund to take such action as it deems appropriate to ensure compliance and the Fund may rely upon its available line of credit to satisfy such liquidity amount.

Liquidity Policy: The Board may delegate day-to-day responsibility for evaluating liquidity of specific assets to the Fund's investment advisor, but shall continue to be responsible for monitoring the investment advisor's performance of its duties and the composition of the portfolio. Accordingly, the Board has approved this policy that is reasonably designed to ensure that the Fund's portfolio assets are sufficiently liquid so that the Fund can comply with its fundamental policy on repurchases and comply with the liquidity requirements in the preceding paragraph.

1. In evaluating liquidity, the following factors are relevant, but not necessarily determinative:
 - (a) The frequency of trades and quotes for the security.

- (b) The number of dealers willing to purchase or sell the security and the number of potential purchasers.
 - (c) Dealer undertakings to make a market in the security.
 - (d) The nature of the marketplace trades (e.g., the time needed to dispose of the security, the method of soliciting offer and the mechanics of transfer).
 - (e) The size of the Fund's holdings of a given security in relation to the total amount of outstanding of such security or to the average trading volume for the security.
 - (f) The availability of the line of credit.
2. If market developments impair the liquidity of a security, the investment advisor should review the advisability of retaining the security in the portfolio. The investment advisor should report the basis for its determination to retain a security at the next Board of Trustees meeting.
 3. The Board shall review the overall composition and liquidity of the Fund's portfolio on a quarterly basis.
 4. These procedures may be modified as the Board deems necessary.

Registration Statement Disclosure: The Fund's registration statement must disclose its intention to make or consider making such repurchase offers.

Annual Report Disclosure: The Fund shall include in its annual report to shareholders the following:

1. Disclosure of its fundamental policy regarding periodic repurchase offers.
2. Disclosure regarding repurchase offers by the Fund during the period covered by the annual report, which disclosure shall include:
 - (a) the number of repurchase offers,
 - (b) the repurchase offer amount and the amount tendered in each repurchase offer,
 - (c) and the extent to which in any repurchase offer the Fund repurchased stock pursuant to the procedures in this section.

Advertising: The Fund, or any underwriter for the Fund, must comply, as if the Fund were an open-end investment company, with the provisions of Section 24(b) of the 1940 Act and the rules thereunder and file, if necessary, with FINRA or the SEC any advertisement, pamphlet, circular, form letter, or other sales literature addressed to or intended for distribution to prospective investors.

Involuntary Repurchases

The Fund may, at any time, in accordance with Section 23 of the 1940 Act, and any applicable rules thereunder, repurchase at net asset value shares held by a shareholder, or any person acquiring shares from or through a shareholder, without shareholder consent if: the shares have been transferred to or have vested in any other person other than by operation of law as the result of the death, dissolution, bankruptcy or incompetency of a shareholder; ownership of the shares by the shareholder or other person will cause the Fund to be in violation of, or require registration of the shares, or subject the Fund to additional registration or regulation under, the securities, commodities or other laws of the United States or any other relevant jurisdiction; continued ownership of the shares may be harmful or injurious to the business or reputation of the Fund or may subject the Fund or any shareholders to an undue risk of adverse tax or other fiscal consequences; the shareholder owns shares having an aggregate net asset value less than an amount determined from time to time by the Trustees; or it would be in the interests of the Fund, as determined by the Board, for the Fund to repurchase the Shares.

Transfers of Shares

No person may become a substituted shareholder without the written consent of the Board, which consent may be withheld for any reason in the Board's sole and absolute discretion. Shares may be transferred only (i) by operation of law pursuant to the death, bankruptcy, insolvency or dissolution of a shareholder or (ii) with the written consent of the Board, which may be withheld in its sole and absolute discretion. The Board may, in its discretion, delegate to the Advisor its authority to consent to transfers of shares. Each shareholder and transferee is required to pay all expenses, including attorneys and accountants fees, incurred by the Fund in connection with such transfer.

Other Information About Determination of NAV

The Fund may hold investments, such as private placements or other non-traded securities or temporarily illiquid securities, for which market quotations are not readily available or are determined to be unreliable. These investments will be valued at their fair market value as determined in good faith by the Advisor, in its capacity as the Board's valuation designee, pursuant to Rule 2a-5 under the 1940 Act. As the valuation designee, the Adviser executes the Fund's valuation policies and acts under the Board's oversight. The Advisor may enlist third party service providers, such as a fair value team comprised of one or more representatives from the Fund, the Adviser and the Sub-Advisor, pricing services, broker-dealers or valuation firms, on an as-needed basis to assist in determining a security-specific fair value. The Board reviews the execution of this process and the resultant fair value prices quarterly to assure the process produces reliable results.

Valuation Designee and Valuation Process. The Fund's investments are valued collectively via inputs from each group supporting the Advisor. For example, fair value determinations are required for the following investments: (i) investments for which market quotations are insufficient or not readily available on a particular business day (including securities for which there is a short and temporary lapse in the provision of a price by the regular pricing source), (ii) investments for which, in the judgment of the Advisor, the prices or values available do not represent the fair value of the instrument. Factors which may cause the Advisor to make such a judgment include, but are not limited to, the following: only a bid price or an asked price is available; the spread between bid and asked prices is substantial; the frequency of sales; the thinness of the market; the size of reported trades; and actions of the securities markets, such as the suspension or limitation of trading; (iii) investments determined to be illiquid; and (iv) investments with respect to which an event that will affect the value thereof has occurred (a "significant event") since the closing prices were established on the principal exchange on which they are traded, but prior to the Fund's calculation of its net asset value.

Standards for Fair Value Determinations. As a general principle, the fair value of an investment is the amount that the Fund might reasonably expect to realize upon its current sale. The Fund has adopted Financial Accounting Standards Board Statement of Financial Accounting Standards Codification Topic 820, Fair Value Measurements and Disclosures ("ASC 820"). In accordance with ASC 820, fair value is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 establishes a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability, developed based on the best information available under the circumstances.

Various inputs are used in determining the value of the Fund's investments relating to ASC 820. These inputs are summarized in the three broad levels listed below.

Level 1 –quoted prices in active markets for identical securities/Investments.

Level 2 –other significant observable inputs (including quoted prices for similar securities/Investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 –significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The Advisor takes into account relevant factors and surrounding circumstances, which may include: (i) the nature and pricing history (if any) of the investment; (ii) whether any dealer quotations for the investment are available; (iii) possible valuation methodologies that could be used to determine the fair value of the investment; (iv) the recommendation of the Portfolio Manager or third party service providers of the Fund with respect to the valuation of the investment; (v) whether the same or similar securities are held by other funds managed by the Advisor (or Sub-Advisor) or other funds and the method used to price the investment in those funds; (vi) the extent to which the fair value to be determined for the security will result from the use of data or formulae produced by independent third parties and (vii) the liquidity or illiquidity of the market for the investment.

Board of Trustees Oversight. The Board meets at least quarterly to consider the valuations provided by the Advisor as valuation designee.

MANAGEMENT OF THE FUND

The Board has overall responsibility to manage and control the business affairs of the Fund, including the complete and exclusive authority to oversee and to establish policies regarding the management, conduct and operation of the Fund's business. The Board exercises the same powers, authority and responsibilities on behalf of the Fund as are customarily exercised by the board of directors of a registered investment company organized as a corporation. The business of the Fund is managed under the direction of the Board in accordance with the Agreement and Declaration of Trust and the Fund's By-laws (the "Governing Documents"), each as amended from time to time, which have been filed with the SEC and are available upon request. The Board currently consists of six individuals, four of whom are not "interested persons" (as defined under the 1940 Act) of the Fund, the Advisor, the Sub-Advisor or the Fund's distributor ("Independent Trustees"). A fourth Independent Trustee has been nominated and is expected to be elected to the Board. Pursuant to the Governing Documents of the Fund, the Trustees elected officers including a President (Principal Executive Officer), a Secretary, and a Treasurer (Principal Financial Officer). The Board retains the power to conduct, operate and carry on the business of the Fund and has the power to incur and pay any expenses, which, in the opinion of the Board, are necessary or incidental to carry out any of the Fund's purposes. The Trustees, officers, employees and agents of the Fund, when acting in such capacities, shall not be subject to any personal liability except for his or her own bad faith, willful misfeasance, gross negligence or reckless disregard of his or her duties.

Board Leadership Structure

The Fund is led by Mr. Ramin Kamfar, who served as the sole initial Trustee and has served as the Chairman of the Board since the Fund was organized in 2021. Additionally, under certain 1940 Act governance guidelines that apply to the Fund, the Independent Trustees will meet in executive session, at least quarterly. Under the Fund's Agreement and Declaration of Trust and By-Laws, the Chairman of the Board is responsible for (a) presiding at board meetings, (b) calling special meetings on an as-needed basis, (c) execution and administration of Fund policies including (i) setting the agendas for board meetings and (ii) providing information to board members in advance of each board meeting and between board meetings. The Fund believes that its Chairman, the chair of the Audit Committee, and, as an entity, the full Board of Trustees, provide effective leadership that is in the best interests of the Fund and each shareholder.

Board Risk Oversight

The Board is currently comprised of six trustees, four of whom are Independent Trustees, with a standing independent Audit Committee with a separate chair. The Board is responsible for overseeing risk management, and the full Board regularly engages in discussions of risk management and receives compliance reports that inform its oversight of risk management from the Fund's Chief Compliance Officer at quarterly meetings and on an ad hoc basis, when and if necessary. The Audit Committee considers financial and reporting risk within its area of responsibilities. Generally, the Board believes that its oversight of material risks is adequately maintained through the compliance-reporting chain where the Chief Compliance Officer is the primary recipient and communicator of such risk-related information.

Trustee Qualifications

Generally, the Fund believes that each Trustee is competent to serve because of their individual overall merits including: (i) experience, (ii) qualifications, (iii) attributes and (iv) skills.

Mr. Kamfar has over 30 years of experience in various aspects of real estate, mergers and acquisitions, private equity investing, investment banking, public and private financings, and retail operations, and possesses deep institutional knowledge and industry expertise. He also possesses deep corporate finance and operational experience from both the perspective of an investment banker and of an executive. Mr. Kamfar received an M.B.A. degree with distinction in Finance in 1988 from The Wharton School of the University of Pennsylvania and a B.S. degree with distinction in Finance in 1985 from the University of Maryland College Park.

Mr. Mahmud serves as Chief Executive Officer and Chief Investment Officer at the Sub-Advisor. Mr. Mahmud also serves on the board of directors for Trinitas Capital Management LLC and has been a member of the Trinitas Investment Committee since 2015. Prior to joining the Sub-Advisor, Mr. Mahmud was a Senior Vice President and Head of Mergers, Acquisitions and Business Strategy for a private family office. Previously Mr. Mahmud served as Senior Portfolio Manager and Head of Structured Products at Highland Capital Management, L.P. He served as the Head of the Structured Product Credit Committee and the Senior Structured Products Trader. Mr. Mahmud structured, marketed, negotiated, managed and monitored 30+ CDOs totaling over \$28 billion backed by a variety of asset types. Mr. Mahmud managed a team of professionals that was responsible for the day-to-day management of all CDOs including portfolio management, asset surveillance, cash management, portfolio structuring, monthly trustee reporting, and quarterly waterfall and cashflow calculations. He also marketed related CDO investment strategies globally to pension funds, endowments, hedge funds, insurance companies and money managers. Additionally, Mr. Mahmud managed and invested a portfolio of over \$6 billion of structured credit paper that was primarily backed by senior secured bank loan collateral and traded over \$10 billion of structured credit paper overall during his time at Highland. Prior to joining Highland, he served as a Senior Analyst at Fleet Capital where he was involved in originating, structuring, modeling and credit analysis for clients primarily in the manufacturing, retail and services industries. Mr. Mahmud began his career as a Senior Auditor at Arthur Andersen. Mr. Mahmud received a Master of Business Administration in Finance and a Bachelor of Business Administration in Accounting from Baylor University.

Mr. Majumder is a partner at the law firm of Frost Brown Todd LLP, where he focuses his practice on corporate and securities transactions primarily in the energy (oil & gas, coal, and renewables), mining, health care, and information technology industry verticals. He represents underwriters, placement agents, and issuers in both public and private offerings of securities; public and privately-held companies in both cross-border and domestic mergers and acquisitions (M&A); private equity funds, hedge funds, and venture capital funds in connection with their formation as well as their investments; and companies receiving private equity and venture capital financing. Prior to Frost Brown Todd, Mr. Majumder was a partner at the law firm of Reed Smith from May 2019 to 2021, at the law firm of Perkins Coie, LLP from April 2013 to May 2019, at the law firm of K&L Gates LLP from May 2005 to March 2013 and at the law firm of Gardere Wynne Sewell LLP from January 2000 to April 2005. Through his law practice, Mr. Majumder has gained significant experience relating to the acquisition of a number of types of real property assets including raw land, improved real estate and oil and gas interests. He is an active member of the Park Cities Rotary Club, a charter member of the Dallas Chapter of The Indus Entrepreneurs and an Associates Board member of the Cox School of Business at Southern Methodist University. Mr. Majumder received a J.D. degree in 1993 from Washington and Lee University School of Law, and a B.A. degree in 1990 from Trinity University.

Mr. Tio's experience serving as a Managing Director of several investment firms has given him strong understanding of credit markets and a spectrum of credit products. Prior to serving in these executive positions, Mr. Tio was involved in real estate investment, financing, sales and brokerage for 25 years. Mr. Tio received a B.S. degree in Biochemistry in 1982 from Hofstra University.

Mr. Jafarnia currently serves as General Counsel and Co-Founder for Opto Investments, Inc. Prior to Opto, Mr. Jafarnia served as General Counsel and Chief Compliance Officer at Artivest Holdings, Inc., from October 2018 until February 2021, and as Chief Compliance Officer for the Altegris KKR Commitments Fund. Prior to Artivest, Mr. Jafarnia served as Managing Director for Legal and Business Development at Provasi Capital Partners LP. Prior to that, from October 2014 to December 2017, he served as Senior Vice President of W.P. Carey Inc. (NYSE: WPC), as well as Senior Vice President and Chief Compliance Officer of Carey Credit Advisors, Inc. and as Chief Compliance Officer and General Counsel of Carey Financial, LLC. Prior to joining W. P. Carey Inc., Mr. Jafarnia served as Counsel to two American Lawyer Global 100 law firms in New York. From March 2014 to October 2014, Mr. Jafarnia served as Counsel in the REIT practice group at the law firm of Greenberg Traurig, LLP. From August 2012 to March 2014, Mr. Jafarnia served as Counsel in the Financial Services & Products Group and was a member of the REIT practice group of Alston & Bird, LLP. Between 2004 and 2012, Mr. Jafarnia served as a senior executive, in-house counsel, and Chief Compliance Officer for several alternative investment program sponsors, including, among others, American Realty Capital, a real estate investment program sponsor, and its affiliated broker-dealer, Realty Capital Securities, LLC. In addition, Mr. Jafarnia has served as a non-executive independent member of the board of directors for two publicly traded companies: 1) Ashford Hospitality Trust, Inc. (NYSE: AHT) since January 2013; and 2) Bluerock Residential Growth REIT, Inc. (NYSE American: BRG) since June 2019. Mr. Jafarnia received an LL.M. in Securities and Financial Regulation in 2011 from Georgetown University Law Center, a J.D. degree in 1992 from Temple University and a B.A. degree in Economics and Government in 1988 from the University of Texas at Austin. Mr. Jafarnia is the chairman of the Audit Committee.

Ms. Farsheed contributes over 30 years of experience in the financial services industry in a variety of senior-level business development and relationship management roles. She has extensive experience in developing distribution strategy across the independent broker-dealer, bank and wirehouse channels for a broad array of alternative investment products as well as exchange-traded funds, exchange-traded notes, structured products, interval funds and mutual funds. Most recently, from June 2022 until May 2023, Ms. Farsheed was the Managing Director, Head of Distribution for iCap Equity, a financial services firm. Prior to iCap Equity, Mr. Farsheed served as the Executive Director of Strategic Partnerships at the Institute for Portfolio Alternatives (IPA) where she cultivated partnerships with large institutional investors and private equity firms. Prior to IPA, Ms. Farsheed was an Executive Vice President, Head of Business Development at AXIO Financial, Inc., a third-party distribution firm, where she built distribution channels for asset management firms. Prior to joining AXIO, from March 2012 to February 2018, Ms. Farsheed worked at Bluerock Capital Markets, LLC where her most recent role was serving as Executive Vice President, Head of Relationship Management. Ms. Farsheed earned her B.S. in Marketing from San Francisco State University. She currently holds FINRA Series 7 and Series 63 securities licenses.

Following is a list of the Trustees and executive officers of the Fund and their principal occupations over the last five years. Unless otherwise noted, the address of each Trustee and Officer is c/o ALPS Fund Services, Inc., 1290 Broadway, Suite 1000, Denver, CO 80203.

Independent Trustees

Name, Year of Birth	Position/Term of Office*	Principal Occupation During the Past Five Years	Number of Portfolios in Fund Complex** Overseen by Trustee	Other Directorships held by Trustee During Last Five Years

* The term of office for each Trustee and officer listed above will continue indefinitely once elected.

** The term “Fund Complex” refers to the Fund and the Bluerock Total Income+ Real Estate Fund.

Board Committees

Audit Committee

The Board has an Audit Committee that consists of all the Trustees that are not an “interested person” of the Fund within the meaning of the 1940 Act. The Audit Committee’s responsibilities include: (i) recommending to the Board the selection, retention or termination of the Fund’s independent auditors; (ii) reviewing with the independent auditors the scope, performance and anticipated cost of their audit; (iii) discussing with the independent auditors certain matters relating to the Fund’s financial statements, including any adjustment to such financial statements recommended by such independent auditors, or any other results of any audit; (iv) reviewing on a periodic basis a formal written statement from the independent auditors with respect to their independence, discussing with the independent auditors any relationships or services disclosed in the statement that may impact the objectivity and independence of the Fund’s independent auditors and recommending that the Board take appropriate action in response thereto to satisfy itself of the auditor’s independence; and (v) considering the comments of the independent auditors and management’s responses thereto with respect to the quality and adequacy of the Fund’s accounting and financial reporting policies and practices and internal controls. The Audit Committee operates pursuant to an Audit Committee Charter. Due to the size of the Board, the Audit Committee is also responsible for seeking and reviewing nominee candidates for consideration as Trustees as is from time to time considered necessary or appropriate. The Audit Committee reviews all nominations of potential trustees made by Fund management and by Fund shareholders, which includes all information relating to the recommended nominees that is required to be disclosed in solicitations or proxy statements for the election of directors, including without limitation the biographical information and the qualifications of the proposed nominees. Nomination submissions must be accompanied by a written consent of the individual to stand for election if nominated by the Board and to serve if elected by the shareholders, and such additional information must be provided regarding the recommended nominee as reasonably requested by the Audit Committee. The Audit Committee meets to consider nominees as is necessary or appropriate. The Audit Committee is also responsible for reviewing and setting Independent Trustee compensation from time to time when considered necessary or appropriate. . During the fiscal year ended September 30, 2023, the Audit Committee held three meetings.

Trustee Ownership

The following table indicates the dollar range of equity securities that each Trustee beneficially owned in the Fund as of December 31, 2023.

Name of Trustee	Dollar Range of Equity Securities in the Fund	Aggregate Dollar Range of Equity Securities in All Registered Investment Companies Overseen by Trustee in Family of Investment Companies*
Kamal Jafarnia	\$1-\$10,000	\$10,001-\$50,000
Bobby Majumder	\$1-\$10,000	\$50,001-\$100,000
Gibran Mahmud	Over \$100,000	Over \$100,000
Ramin Kamfar [^]	Over \$100,000	Over \$100,000
Romano Tio	\$1-\$10,000	\$50,001-\$100,000
S. Sori Farsheed	\$1-\$10,000	\$50,001-\$100,000

* The “family of investment companies” includes the Fund and Bluerock Total Income+ Real Estate Fund.

[^] Reflects Mr. Kamfar’s interests through direct ownership of Bluerock Asset Management

Compensation

Each Trustee who is not affiliated with the Fund or Advisor will receive an annual fee of \$10,000 per year, of which, 50%, will be payable in cash and 50% payable in shares of the Fund, as well as reimbursement for any reasonable expenses incurred in attending the meetings or executing their duties. None of the executive officers receive compensation from the Fund.

The table below details the amount of compensation the Trustees earned during the Fund’s fiscal year ended September 30, 2023. The Fund does not have a bonus, profit sharing, pension or retirement plan.

Name	Aggregate Compensation From Fund	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation From Trust Paid to Directors
Interested Trustees				
Ramin Kamfar*	\$0	None	None	\$0
Gibran Mahmud*	\$0	None	None	\$0
Independent Trustees				
Bobby Majumder	\$10,000	None	None	\$10,000
Kamal Jafarnia	\$10,000	None	None	\$10,000
Romano Tio	\$10,000	None	None	\$10,000
S. Sori Farsheed	\$10,000	None	None	\$10,000

* Mr. Kamfar and Mr. Mahmud are interested and do not receive compensation from the trust as a trustee.

CODES OF ETHICS

Each of the Fund, the Advisor, the Sub-Advisor, and the Fund’s principal distributor has adopted a code of ethics under Rule 17j-1 of the 1940 Act (collectively the “Ethics Codes”). Rule 17j-1 and the Ethics Codes are designed to prevent unlawful practices in connection with the purchase or sale of securities by covered personnel (“Access Persons”). The Ethics Codes permit Access Persons, subject to certain restrictions, to invest in securities, including securities that may be purchased or held by the Fund. Under the Ethics Codes, Access Persons may engage in personal securities transactions, but are required to report their personal securities transactions for monitoring purposes. In addition, certain Access Persons are required to obtain approval before investing in initial public offerings or private placements. The Ethics Codes can be reviewed and copied at the SEC’s Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-202-551-8090. The codes are available on the EDGAR database on the SEC’s website at www.sec.gov, and also may be obtained, after paying a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov, or by writing the SEC’s Public Reference Section, Washington, D.C. 20549.

PROXY VOTING POLICIES AND PROCEDURES

The Board has adopted Proxy Voting Policies and Procedures (“Policies”) on behalf of the Fund, which delegate the responsibility for voting proxies to the Sub-Advisor, subject to the Board’s continuing oversight. The Policies require that the Sub-Advisor vote proxies received in a manner consistent with the best interests of the Fund and shareholders. The Policies also require the Advisor to present to the Board, at least annually, the Advisor’s and Sub-Advisor’s Proxy Policies and a record of each proxy voted by the Advisor or Sub-Advisor on behalf of the Fund, including a report on the resolution of all proxies identified by the Advisor involving a conflict of interest. The Advisor has delegated all proxy voting responsibilities to the Sub-Advisor for the portfolio securities that it manages.

Where a proxy proposal raises a material conflict between the interests of the Advisor or Sub-Advisor, any affiliated person(s) of the Sub-Advisor, the Fund’s principal underwriter (distributor) or any affiliated person of the principal underwriter (distributor), or any affiliated person of the Fund and the Fund’s or its shareholder’s interests, the Advisor/ Sub-Advisor (as applicable) will resolve the conflict by voting in accordance with the policy guidelines or at the Fund’s directive using the recommendation of an independent third party. If the third party’s recommendations are not received in a timely fashion, the Sub-Advisor will abstain from voting. A copy of the Sub-Advisor’s proxy voting policies is attached hereto as Appendix A.

Information regarding how the Fund voted proxies relating to portfolio securities held by the Fund during the most recent 12-month period ending June 30 will be available (1) without charge, upon request, by calling the Fund toll-free at 1-844-819-8287; and (2) on the SEC’s website at <http://www.sec.gov>. In addition, a copy of the Fund’s proxy voting policies and procedures are also available by calling toll-free at 1-844-819-8287 and will be sent within three business days of receipt of a request.

CONTROL PERSONS AND PRINCIPAL HOLDERS

A principal shareholder is any person who owns (either of record or beneficially) 5% or more the outstanding shares of a fund. A control person is one who owns, either directly or indirectly, more than 25% of the voting securities of a company or acknowledges the existence of control. As of January 3, 2024 are listed in the chart below. Each shareholder listed below is a record shareholder, holding shares for the benefit of others.

Class F Shares		
Name and Address	Shares Owned	Percentage of Class
INTERVAL HOLDCO LLC 200 CRESCENT CT., STE 1775 DALLAS, TX 75201-1834	3,295,849.12	93.55%
BLUEROCK ASSET MANAGEMENT LLC 1345 AVENUE OF THE AMERICAS, 32 ND FL NEW YORK, NY 10105-0302	227,389.12	6.45%

As of January 3, 2024, the Trustees and officers, as a group, owned less than 1.00% of the shares of the Fund.

INVESTMENT ADVISORY AND OTHER SERVICES

The Advisor

Bluerock Credit Fund Advisor, LLC, located at 1345 Avenue of the Americas, 32nd Floor, New York, NY 10105, serves as the Fund's investment advisor. The Advisor is registered with the SEC as an investment advisor under the Investment Advisers Act of 1940, as amended ("Advisers Act"). The Advisor is a Delaware limited liability company formed in November 2017. The Advisor is a subsidiary of Bluerock Asset Management, LLC ("BAM") a Delaware limited liability company, which is controlled by Ramin Kamfar because he indirectly owns more than 25% of its voting interests as of the date of this SAI. Mr. Kamfar also serves as a Trustee of the Trust.

Under the general supervision of the Board, the Advisor will carry out the investment and reinvestment of the assets of the Fund, will furnish continuously an investment program with respect to the Fund, and will determine which securities should be purchased, sold or exchanged. In addition, the Advisor will supervise and provide oversight of the Fund's service providers. The Advisor will furnish to the Fund office facilities, equipment and personnel for servicing the management of the Fund. The Advisor will compensate all Advisor personnel who provide services to the Fund. In return for these services, facilities and payments, the Fund has agreed to pay the Advisor as compensation under the Investment Management Agreement a monthly management fee computed at the annual rate of 1.75% of the average value of the daily net assets of the Fund as well as an incentive fee. The Advisor may employ research services and service providers to assist in the Advisor's market analysis and investment selection. For the fiscal year ended September 30, 2023, the Advisor earned a base management fee of \$1,574,272 and incentive fees of \$2,452,902. For the fiscal year ended September 30, 2022, the Advisor earned a base management fee of \$401,732 and incentive fees of \$541,586.

Sub-Advisor

The Advisor has entered into a sub-advisory agreement ("Sub-Advisory Agreement") with WhiteStar Asset Management LLC located at 200 Crescent Court, Suite 1175, Dallas, Texas 75201, an investment advisor registered with the SEC under the Advisers Act, to provide investment management for the Fund's portfolio. Under the terms of the Sub-Advisory Agreement, the Sub-Advisor is paid 50% of the net investment advisory fees paid to the Advisor by the Fund pursuant to the investment advisory agreement between the Fund and the Advisor.

Expense Limitation Agreement

The Advisor and the Fund have entered into an expense limitation and reimbursement agreement (the "Expense Limitation Agreement") under which the Advisor has contractually agreed to waive the base management fees and/or reimburse the Fund for ordinary operating expenses the Fund incurs but only to the extent necessary to maintain the Fund's total annual operating expenses after fee waivers and/or reimbursement (exclusive of any incentive fee, taxes, interest, brokerage commissions, and extraordinary expenses, such as litigation or reorganization costs, but inclusive of organizational costs and offering costs), to the extent that such expenses exceed 1.75% and per annum of the Fund's average daily net assets attributable to Class F shares (the "Expense Limitation"). For the avoidance of doubt, acquired fund fees and expenses are not operating costs and are therefore excluded from the Expense Limitation. In consideration of the Advisor's agreement to limit the Fund's expenses, the Fund has agreed to repay the Advisor in the amount of any fees waived and Fund expenses paid or absorbed, subject to the limitations that: any waiver or reimbursement by the Advisor is subject to repayment by the Fund within the three years following the date the waiver or reimbursement occurred (provided the Advisor continues to serve as investment adviser to the Fund), if the Fund is able to make the repayment without exceeding the expense limitation then in effect or in effect at the time of the waiver and the repayment is approved by the Board of Trustees (the "Board"). The Expense Limitation Agreement will remain in effect at least until January 31, 2025, unless and until the Board approves its modification or termination. After January 31, 2025, the Expense Limitation Agreement may be renewed at the Advisor's and Board's discretion. All costs incurred by the Fund in connection with its organization and offering that have been paid by the Advisor will be subject to reimbursement as described above. For the fiscal year ended September 30, 2023, the Advisor waived \$970,956 pursuant to the Expense Limitation Agreement, which is subject to recoupment per the terms aforementioned. In addition to the Expense Limitation Agreement described above, the Advisor voluntarily waived or absorbed all of the operating expenses of the Fund from the commencement of Fund operations through September 30, 2023, which amounted to \$4,062,861. For the period ended September 30, 2022, the Advisor waived \$401,732 pursuant to the Expense Limitation Agreement, which is subject to recoupment per the terms aforementioned. In addition to the Expense Limitation Agreement described above, the Advisor voluntarily waived or absorbed all of the operating expenses of the Fund from the commencement of Fund operations through September 30, 2022, which amounted to \$1,046,282. Operating expenses voluntarily waived or absorbed by the Advisor during the aforementioned period are not subject to recoupment by the Advisor. The Advisor may continue to bear such expenses on a going forward basis in its discretion and is under no obligation to continue to do so for any specified period of time.

Conflicts of Interest

The Advisor and the Sub-Advisor may provide investment advisory and other services, directly and through affiliates, to various entities and accounts other than the Fund (“Advisor Accounts”). The Fund has no interest in these activities. The Advisor and the Sub-Advisor and the investment professionals, who on behalf of the Advisor or the Sub-Advisor, provide investment advisory services to the Fund, are engaged in substantial activities other than on behalf of the Fund, may have differing economic interests in respect of such activities, and may have conflicts of interest in allocating their time and activity between the Fund and the Advisor Accounts. Such persons devote only so much time to the affairs of the Fund as in their judgment is necessary and appropriate. Set out below are practices that each of the Advisor and the Sub-Advisor follow.

Participation in Investment Opportunities

Directors, principals, officers, employees and affiliates of the Advisor or Sub-Advisor may buy and sell securities or other investments for their own accounts and may have actual or potential conflicts of interest with respect to investments made on behalf of the Fund. As a result of differing trading and investment strategies or constraints, positions may be taken by directors, principals, officers, employees and affiliates of the Advisor or Sub-Advisor, or by the Advisor or Sub-Advisor for the Advisor Accounts, if any, that are the same as, different from or made at a different time than, positions taken for the Fund.

Conflicts of Interest Regarding the Portfolio Managers

Real, potential or apparent conflicts of interest may arise when a portfolio manager has day-to-day portfolio management responsibilities with respect to more than one fund or account, including the following:

- Certain investments may be appropriate for the Fund and also for other client accounts managed by the Fund’s portfolio management team. Investment decisions for the Fund and other clients are made with a view to achieving their respective investment objectives and after consideration of such factors as their current holdings, availability of cash for investment and the size of their investments generally. A particular security may be bought or sold for only one client or in different amounts and at different times for more than one but less than all clients. Likewise, because client accounts managed by the Fund’s portfolio managers may have differing investment strategies, a particular security may be bought for one or more clients when one or more other clients are selling the security. The investment results achieved for the Fund may differ from the results achieved for other client accounts managed by the Fund’s portfolio managers. In addition, purchases or sales of the same security may be made for two or more clients on the same day. In such event, such transactions will be allocated among the clients in a manner believed by the portfolio managers to be most equitable to each client, generally utilizing a pro rata allocation methodology. In some cases, the allocation procedure could potentially have an adverse effect or positive effect on the price or amount of the securities purchased or sold by the Fund. Purchase and sale orders for the Fund may be combined with those of other client accounts managed by the Fund’s portfolio managers in the interest of achieving the most favorable net results to the Fund and the other clients.

- To the extent that a portfolio manager has responsibilities for managing multiple client accounts, a portfolio manager will need to divide time and attention among relevant accounts. The Sub-Advisor and its affiliates attempt to minimize these conflicts by aligning its portfolio management teams by investment strategy and by employing similar investment models across multiple client accounts.
- In some cases, an apparent conflict may arise where the portfolio managers have an incentive, such as a performance-based fee or a higher management fee, in managing one account and not with respect to other accounts it manages. The portfolio managers will not determine allocations based on the compensation they or the Sub-Advisor or its affiliates receive from the client. Additionally, the Sub-Advisor has in place supervisory oversight processes to periodically monitor performance deviations for accounts with like strategies.
- The Fund's portfolio managers have limited restrictions on their ability to manage accounts for multiple clients, including accounts following the same, similar or different investment objectives, philosophies and strategies as those used for the Fund. In those situations where there may be potential conflicts of interest in allocating investment opportunities between the Fund and any other account managed by the Sub-Advisor, the Sub-Advisor has adopted procedures that it believes are reasonably designed to mitigate these and other potential conflicts of interest. Included in these procedures are specific guidelines developed to provide fair and equitable treatment for all clients whose accounts are managed by the Sub-Advisor. The Sub-Advisor and the portfolio management team have established monitoring procedures, a protocol for supervisory reviews, as well as compliance oversight to ensure that potential conflicts of interest relating to this type of activity are properly addressed. Cross trades between the Fund and any other Sub-Advisor client will be prohibited.
- By sharing supervised persons and the same physical location, the Sub-Advisor is a related person of Trinitas, an investment adviser registered with the SEC under the Advisers Act. Trinitas was formed to provide investment advisory services, initially as a collateral manager for pooled investment vehicles that are CLOs. The Sub-Advisor is providing mid- and back- office services associated with its asset management business, including trading, portfolio analysis, credit review and monitoring, asset valuation, and risk and compliance management to Trinitas. These services are provided by the Sub-Advisor under an agreement between the Sub-Advisor and Trinitas. Certain of the Sub-Advisor's investment professionals and officers also act as members on Trinitas' investment committee and serve as officers of Trinitas, including serving as Trinitas' Chief Compliance Officer. Such individuals are separately engaged and compensated by Trinitas and serve at the discretion and subject to the control and direction of Trinitas' board of managers, who are elected by its members.

- In general, the Sub-Advisor expects to conduct its activities in a manner that is separate and independent from the activities of Trinitas. However, as stated above, certain of Sub-Advisor's investment professionals and officers provide investment advisory and other services and engage in various activities with respect to Trinitas and its advisory clients. Additionally, Trinitas' advisory clients could from time to time invest in the same financial instruments or engage in the same or similar investment strategies as Sub-Advisor and/or its advisory clients, including the Fund. These activities could conflict with the transactions and strategies employed by the Sub-Advisor and its employees and related parties in managing the Fund and could raise various other actual or potential conflicts of interest. Moreover, the time and effort of the Sub-Advisor's investment professionals, officers and various other employees will not be devoted exclusively to Sub-Advisor's business or the business of its clients but will be allocated among Sub-Advisor, its clients and Trinitas and its clients.

The Sub-Advisor addresses these and other conflict of interest by providing in its Code of Ethics that all supervised persons have a duty to act in the best interests of each client and by providing training to supervised persons with respect to conflicts of interest and how such conflicts are resolved under the Sub-Advisor's written policies and procedures. The Sub-Advisor has instituted business and compliance policies, procedures and disclosures that are designed to identify, monitor and mitigate conflicts of interest and, as appropriate, to report them to the Fund's Board.

INVESTMENT COMMITTEE

The Advisor has established an investment committee (the "Investment Committee") comprised of Ramin Kamfar, Jordan B. Ruddy, Simon Adamiyatt, Adam Lotterman, Ryan MacDonald, and Tim Thran who are responsible for: (1) setting overall investment policies and strategies for the Fund; (2) establishing allocation targets for the Fund's investment portfolio as part of the portfolio planning process; (3) reviewing and approving investments and (4) generally overseeing the activities of the Fund's Sub-Advisor.

PORTFOLIO MANAGERS

Gibran Mahmud, Philip Braner, and Neil Desai serve as the Fund's portfolio managers and, subject to the Investment Committee's oversight, oversee investments on behalf of the Fund. Each has served as a Portfolio Manager to the Fund since its inception.

Professional compensation at the Sub-Advisor is structured so that key professionals benefit from strong investment performance generated on the accounts that the Sub-Advisor manages and from their longevity with the Sub-Advisor. Each Portfolio Manager has direct equity ownership interests in the Sub-Advisor and related long-term incentives. Each Portfolio Manager also receives a fixed base salary. Many of the factors considered by management in reaching its compensation determinations will be impacted by our long-term performance and the value of our assets as well as the portfolios managed for the Sub-Advisor's other clients.

As of September 30, 2023, the portfolio managers were responsible for the management of the following types of accounts in addition to the Fund:

Gibran Mahmud

Other Accounts By Type	Total Number of Accounts by Account Type	Total Assets By Account Type	Number of Accounts by Type Subject to a Performance Fee	Total Assets By Account Type Subject to a Performance Fee
Registered Investment Companies	1	\$101,000,000	0	\$0
Other Pooled Investment Vehicles	39	\$15,500,000,000	39	\$15,500,000,000
Other Accounts	2	\$30,400,000	0	\$0

Philip Braner

Other Accounts By Type	Total Number of Accounts by Account Type	Total Assets By Account Type	Number of Accounts by Type Subject to a Performance Fee	Total Assets By Account Type Subject to a Performance Fee
Registered Investment Companies	0	\$0	0	\$0
Other Pooled Investment Vehicles	1	\$59,700,000	1	\$59,700,000
Other Accounts	2	\$30,400,000	0	\$0

Neil Desai

Other Accounts By Type	Total Number of Accounts by Account Type	Total Assets By Account Type	Number of Accounts by Type Subject to a Performance Fee	Total Assets By Account Type Subject to a Performance Fee
Registered Investment Companies	0	\$0	0	\$0
Other Pooled Investment Vehicles	1	\$59,700,000	1	\$59,700,000
Other Accounts	2	\$30,400,000	0	\$0

In addition to the accounts above, portfolio managers may manage accounts in a personal capacity that may include holdings that are similar to, or the same as, those of the Fund. The Sub-Advisor has in place a Code of Ethics that is designed to address conflicts of interest and that, among other things, imposes restrictions on the ability of portfolio managers and other “access persons” to invest in securities that may be recommended or traded in each fund and other client accounts.

Distributor

ALPS Distributors, Inc., located at 1290 Broadway, Suite 1000, Denver, Colorado 80203 (the “Distributor”) serves as the principal underwriter and national distributor for the shares of the Fund pursuant to an underwriting agreement with the Fund (the “Underwriting Agreement”). The Distributor is registered as a broker-dealer under the Securities Exchange Act of 1934 and each state’s securities laws and is a member of FINRA. The Underwriting Agreement provides that the Distributor, as agent in connection with the distribution of Fund shares, will use reasonable efforts to facilitate the sale of the Fund’s shares.

ALLOCATION OF BROKERAGE

Specific decisions to make investment on behalf of the Fund are made by the Portfolio Managers who are employees of the Sub-Advisor. The Sub-Advisor is authorized by the Trustees to allocate the orders placed on behalf of the Fund to brokers or dealers who may be recommended by the Sub-Advisor, but need not, provide research or statistical material or other services to the Fund or the Sub-Advisor for the Fund's use. Such allocation is to be in such amounts and proportions as the Sub-Advisor may determine. The Sub-Advisor will maintain all discretionary authority and confirm any trade execution outsourced to an affiliate complies with the Sub-Advisor's best execution policies and procedures and that any soft dollar arrangements are compliant with Section 28(e) of the Securities Exchange Act of 1934. During the fiscal year ended September 30, 2023, the Fund did not pay brokerage commissions.

In selecting a broker or dealer to execute each particular transaction, the Sub-Advisor or an affiliate will take the following into consideration: execution capability, trading expertise, accuracy of execution, commission rates, reputation and integrity, fairness in resolving disputes, financial responsibility and responsiveness.

Brokers or dealers executing a portfolio transaction on behalf of the Fund may receive a commission in excess of the amount of commission another broker or dealer would have charged for executing the transaction if the Sub-Advisor, as appropriate, determines in good faith that such commission is reasonable in relation to the value of brokerage and research services provided to the Fund. In allocating portfolio brokerage, the Sub-Advisor or an affiliate may select brokers or dealers who also provide brokerage, research and other services to other accounts over which the Advisor and/or the Sub-Advisor exercises investment discretion. Some of the services received as the result of Fund transactions may primarily benefit accounts other than the Fund, while services received as the result of portfolio transactions effected on behalf of those other accounts may primarily benefit the Fund.

Affiliated Party Brokerage

None of the Advisor, the Sub-Advisor or their respective affiliates will purchase securities or other property from, or sell securities or other property to, the Fund, except that the Fund may in accordance with rules under the 1940 Act engage in transactions with accounts that are affiliated with the Fund as a result of common officers, directors, advisors, members, managing general partners or common control. These transactions would be effected in circumstances in which the Sub-Advisor determined that it would be appropriate for the Fund to purchase and another client to sell, or the Fund to sell and another client to purchase, the same security or instrument each on the same day.

The Fund places its trades under a policy adopted by the Trustees pursuant to Section 17(e) and Rule 17(e)(1) under the 1940 Act which places limitations on the securities transactions effected through Bluerock Capital Markets, LLC, a broker-dealer that is an affiliate of the Advisor. The Fund may execute portfolio trades through Bluerock Capital Markets, LLC. The policy of the Fund with respect to brokerage is reviewed by the Trustees from time to time, and transactions affected through Bluerock Capital Markets, LLC are reviewed by the Trustees quarterly. Because of the possibility of further regulatory developments affecting the securities exchanges and brokerage practices generally, the foregoing practices may be modified. During the fiscal year ended September 30, 2023 and September 30, 2022 respectively, the Fund did not pay any affiliated brokerage commissions.

TAX STATUS

The following discussion is general in nature and should not be regarded as an exhaustive presentation of all possible tax ramifications. All shareholders should consult a qualified tax advisor regarding their investment in the Fund.

The Fund intends to qualify as regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”), which, among other things, requires compliance with certain requirements concerning the sources of its income, diversification of its assets, and the amount and timing of its distributions to shareholders. Such qualification does not involve supervision of management or investment practices or policies by any government agency or bureau. By so qualifying, the Fund should not be subject to federal income or excise tax on its net investment income or net capital gain, which are distributed to shareholders in accordance with the applicable timing requirements. Net investment income and net capital gain of the Fund will be computed in accordance with Section 852 of the Code. Net investment income generally includes net income from dividends and interest, as well as any excess of net short-term capital gains over net long-term capital losses. Net capital gain for a fiscal year (that is, any excess of net long-term capital gains over net short-term capital losses) is computed by taking into account any capital loss carryforward of the Fund.

As of September 30, 2023, the components of distributable earnings/(accumulated losses) on a tax basis were as follows:

Undistributed Ordinary Income	Undistributed Long-Term Gains	Post October Loss and Late Year Loss	Capital Loss Carry Forward	Other Book/Tax Differences	Unrealized Appreciation/ (Depreciation)	Total Accumulated Earnings/ (Accumulated Losses)
\$	\$	\$	(\$1,841,650)	\$	\$2,871,307	\$1,029,657

The difference between book basis and tax basis distributable earnings and unrealized appreciation/(depreciation) is primarily attributable to Qualified Electing Funds and partnerships. The Fund intends to distribute all of its net investment income and net capital gain in accordance with the timing requirements imposed by the Code and therefore should not be required to pay any federal income or excise taxes. Distributions of net investment income will be made quarterly and net capital gain will be made after the end of each fiscal year, and no later than December 31 of each year. Both types of distributions will be in shares of the Fund unless a shareholder elects to receive cash.

To be treated as a regulated investment company under Subchapter M of the Code, the Fund must also (a) derive at least 90% of its gross income from dividends, interest, payments with respect to securities loans, net income from certain publicly traded partnerships and gains from the sale or other disposition of securities or foreign currencies, or other income (including, but not limited to, gains from options, futures or forward contracts) derived with respect to the business of investing in such securities or currencies, and (b) diversify its holdings so that, at the end of each fiscal quarter, (i) at least 50% of the market value of the Fund’s assets is represented by cash, U.S. government securities and securities of other regulated investment companies, and other securities (for purposes of this calculation, generally limited in respect of any one issuer, to an amount not greater than 5% of the market value of the Fund’s assets and 10% of the outstanding voting securities of such issuer) and (ii) not more than 25% of the value of its assets is invested in the securities of (other than U.S. government securities or the securities of other regulated investment companies) any one issuer, two or more issuers which the Fund controls and which are determined to be engaged in the same or similar trades or businesses, or the securities of certain publicly traded partnerships.

If the Fund fails to qualify as a regulated investment company under Subchapter M in any fiscal year, it will be treated as a corporation for federal income tax purposes. As such, the Fund would be required to pay income taxes on its net investment income and net capital gains, if any, at the rates generally applicable to corporations. Shareholders of the Fund generally would not be liable for income tax on the Fund's net investment income or net realized capital gains in their individual capacities. Distributions to shareholders, whether from the Fund's net investment income or net realized capital gains, would be treated as taxable dividends to the extent of current or accumulated earnings and profits of the Fund.

The Fund is subject to a 4% nondeductible excise tax on certain undistributed amounts of ordinary income and capital gain under a prescribed formula contained in Section 4982 of the Code. The formula requires payment to shareholders during a calendar year of distributions representing at least 98% of the Fund's ordinary income for the calendar year and at least 98.2% of its capital gain net income (i.e., the excess of its capital gains over capital losses) realized during the one-year period ending October 31 during such year plus 100% of any income that was neither distributed nor taxed to the Fund during the preceding calendar year. Under ordinary circumstances, the Fund expects to time its distributions so as to avoid liability for this tax.

The following discussion of tax consequences is for the general information of shareholders that are subject to tax. Shareholders that are IRAs or other qualified retirement plans are exempt from income taxation under the Code.

Distributions of taxable net investment income (including the excess of net short-term capital gain over net long-term capital loss) are taxable to shareholders as ordinary income.

Distributions of net capital gain ("capital gain dividends") generally are taxable to shareholders as long-term capital gain, regardless of the length of time the shares of the Fund have been held by such shareholders.

A repurchase request for Fund shares submitted by a shareholder will result in the recognition of taxable gain or loss in an amount equal to the difference between the amount realized and the shareholder's tax basis in his or her Fund shares. Such gain or loss is treated as a capital gain or loss if the shares are held as capital assets. However, any loss realized upon the repurchase of shares within six months from the date of their purchase will be treated as a long-term capital loss to the extent of any amounts treated as capital gain dividends during such six-month period. All or a portion of any loss realized upon the repurchase of shares may be disallowed to the extent shares are purchased (including shares acquired by means of reinvested dividends) within 30 days before or after such repurchase.

Distributions of taxable net investment income and net capital gain will be taxable as described above, whether received in additional cash or shares. Shareholders electing to receive distributions in the form of additional shares will have a cost basis for federal income tax purposes in each share so received equal to the net asset value of a share on the reinvestment date.

All distributions of taxable net investment income and net capital gain, whether received in shares or in cash, must be reported by each taxable shareholder on his or her federal income tax return. Dividends or distributions declared in October, November or December as of a record date in such a month, if any, will be deemed to have been received by shareholders on December 31, if paid during January of the following year. Taking advantage of a repurchase offer for shares may result in tax consequences (gain or loss) to the shareholder and any repurchases are also subject to these reporting requirements.

Under the Code, the Fund will be required to report to the Internal Revenue Service all distributions of taxable income and capital gains as well as gross proceeds from the repurchase or exchange of Fund shares, except in the case of certain exempt shareholders. Under the backup withholding provisions of Section 3406 of the Code, distributions of taxable net investment income and net capital gain and proceeds from the repurchase or exchange of the shares of a regulated investment company may be subject to withholding of federal income tax in the case of non-exempt shareholders who fail to furnish the investment company with their taxpayer identification numbers and with required certifications regarding their status under the federal income tax law, or if the Fund is notified by the IRS or a broker that withholding is required due to an incorrect TIN or a previous failure to report taxable interest or dividends. If the withholding provisions are applicable, any such distributions and proceeds, whether taken in cash or reinvested in additional shares, will be reduced by the amounts required to be withheld.

Payments to a shareholder that is either a foreign financial institution (“FFI”) or a non-financial foreign entity (“NFFE”) within the meaning of the Foreign Account Tax Compliance Act (“FACTA”) may be subject to a generally nonrefundable 30% withholding tax on: (a) income dividends paid by the Fund and (b) certain capital gain distributions and the proceeds arising from the sale of Fund shares. FACTA withholding tax generally can be avoided: (a) by an FFI, subject to any applicable intergovernmental agreement or exemption, if it enters into a valid agreement with the IRS to, among other requirements, report required information relating to certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (b) by an NFFE, if it: (i) certifies that it has no substantial U.S. persons or owners or (ii) if it does have such owners, reports the information relating to them. The Fund may disclose the information that it receives from its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FACTA. Withholding also may be required if a foreign entity that is a shareholder of the Fund fails to provide the Fund with appropriate certifications or other documentation concerning its status under FACTA.

OTHER INFORMATION

Each share represents a proportional interest in the assets of the Fund. Each share has one vote at shareholder meetings, with fractional shares voting proportionally, on matters submitted to the vote of shareholders. There are no cumulative voting rights. Shares do not have pre-emptive or conversion or redemption provisions. In the event of a liquidation of the Fund, shareholders are entitled to share pro rata in the net assets of the Fund available for distribution to shareholders after all expenses and debts have been paid.

Compliance Service Provider

ALPS Fund Services, Inc., located at 1290 Broadway, Suite 1000, Denver, Colorado 80203, provides a Chief Compliance Officer to the Fund as well as related compliance services pursuant to a consulting agreement between ALPS Fund Services, Inc. and the Fund.

Administrator, Fund Accountant and Transfer Agent

ALPS Fund Services, Inc., located at 1290 Broadway, Suite 1000, Denver, Colorado 80203, serves as the Fund’s administrator and fund accountant. For the services rendered to the Fund, the Fund pays the Administrator the greater of an annual minimum fee or an asset-based fee, which scales downward based upon net assets. SS&C GIDS, located at PO Box 219445, Kansas City, MO 64121-9445, serves as the Fund’s Transfer Agent and for such services the Fund pays the Transfer Agent the greater of a minimum fee or fees based on the annual net assets of the Fund (with such minimum fees subject to an annual cost of living adjustment) plus out of pocket expenses. For the fiscal year ended September 30, 2023, the Fund paid ALPS \$161,005 for administrative and accounting services. For the fiscal year ended September 30, 2022, the Fund paid ALPS \$95,149 for administrative and accounting services.

Legal Counsel

Thompson Hine LLP, 41 South High Street, Suite 1700, Columbus, Ohio 43215, acts as legal counsel to the Fund.

Custodian

UMB Bank, NA (“UMB”), with principal offices at 1010 Grand Boulevard, Kansas City, Missouri 64106, serves as custodian of the Fund’s assets, and may maintain custody of the Fund’s assets with domestic and foreign sub-custodians (which may be banks, trust companies, securities depositories and clearing agencies) approved by the Trustees. Assets of the Fund are not held by the Advisor or Sub-Advisor or commingled with the assets of other accounts other than to the extent that securities are held in the name of a custodian in a securities depository, clearing agency or omnibus customer account of such custodian.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Cohen & Company, Ltd. has been engaged as the Fund’s independent registered public accounting firm for the fiscal year ending September 30, 2024. Cohen & Company, Ltd. has offices located at 1835 Market St., Suite 310, Philadelphia, PA 19103.

FINANCIAL STATEMENTS

BDO USA, P.C., an independent registered public accounting firm, audited our financial statements as of, and for the year ended, September 30, 2023, which are incorporated by reference in this Statement of Additional Information. The Fund’s annual report is available upon request, without charge, by calling the Fund, toll-free, at 1-844-819-8287.

APPENDIX A
WHITESTAR
PROXY VOTING POLICY

1. General

Rule 206(4)-6 of the Advisers Act requires an adviser that exercises voting authority over Client proxies to vote proxies in the best interests of its Clients. In furtherance of such objective, the Company has established policies and procedures to address voting procedures and any conflicts of interests involved in a proxy vote between the Company and a Client. Additionally, the Company will maintain certain records required to be maintained by Rule 206(4)-6 relating to all voted proxies.

2. Determination of Vote

The Company's proxy voting procedures are designed to ensure that proxies are voted in a manner that is in the best interest of the Client.

The majority of proxy-related issues generally fall within the following five categories:

- corporate governance
- takeover defenses
- compensation plans
- capital structure
- social responsibility

The Company will generally vote in favor of matters that follow an agreeable corporate strategic direction, support an ownership structure that enhances shareholder value without diluting management's accountability to shareholders and/or present compensation plans that are commensurate with enhanced manager performance and market practices.

While proxy voting on all issues presented should be considered, voting on all issues is not required. Some issues presented for a proxy vote of security holders are not deemed relevant to the Company's voting objective, or it is not reasonably possible to ascertain what effect, if any, a vote on a given issue may have on a Client's investment. Additionally, the Company may decide that avoiding further expense and investigation and not voting at all on a presented proposal may be in the best interest of a Client. Accordingly, the Company may abstain from voting in certain circumstances.

3. Conflicts of Interest

Conflicts of interest involved in a proxy vote shall be addressed through the following three-step process:

Identification of all potential conflicts of interest

Examples of potential conflicts of interest include:

- The Company or an affiliate manages a pension plan, administers Employee benefit plans, or provides brokerage, underwriting, insurance, or banking services to a Company whose management is soliciting proxies;

- The Company or an affiliate has a substantial business relationship (separate from the Company’s investment strategy) with a portfolio company or a proponent of a proxy proposal and this business relationship may influence how the proxy vote is cast;
- The Company or an affiliate has a business relationship (separate from the Company’s investment strategy) or personal relationship with participants in a proxy contest, corporate directors or candidates for directorships; or
- An officer or Employee of the Company or an affiliate may have a familial relationship to a portfolio company (e.g. a spouse or other relative who serves as a director of a public company).

Determination of material conflicts

The SEC has not provided any specific guidance as to how an investment adviser should analyze or determine whether a conflict is “material” for purposes of proxy voting. Thus, traditional analysis of questions of materiality under the federal securities laws should be used.

Establishment of procedures to address material conflicts

If a material conflict of interest with respect to a particular vote is encountered, contact the CCO to determine how to vote the proxy consistent with the best interests of a Client and in a manner not affected by any conflicts of interest.

4. Recordkeeping

Pursuant to Rule 204-2, the Company shall retain the following five types of records relating to proxy voting:

- Proxy voting policy and procedures;
- Proxy statements received for Client securities;
- Records of votes cast on behalf of Clients;
- Written Client requests for proxy voting information and written adviser responses to any Client request (whether oral or written) for proxy voting information; and
- Any documents prepared by the Company that were material to making a proxy voting decision or that memorialized the basis for the decision.

5. Policy Statement and Requests

The Advisers Act requires that the Company must inform Client on how they can obtain information about how the Company has voted Client proxies and Client may obtain a copy of the Company’s proxy voting policy upon request. Questions related to this Policy, the proxy voting process and/or information regarding how the Company voted proxies relating to the Client’s portfolio securities may be obtained by Clients, free of charge, by contacting the CCO at (214) 420-4418 or via email at MMurray@whitestaram.com.

With respect to the Fund, the COO or appointed designee will periodically provide the Fund’s investment adviser, a certification of compliance and completion in connection with the proxies voted on behalf of the Fund.
